Title: Bovine Brucellosis Class Free State and Certified Brucellosis-Free Herds; Revisions to Testing and Certification Requirements.

OMB Control Number: 0579–NEW.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. Title: Importation of Small Lots of Seed.

OMB Number: 0579-0285.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. The regulations contained in "Subpart-Plants for Planting" (7 CFR 319.37-1 through 319.37-14) prohibit or restrict, among other things, the importation of living plants, plant parts, and seed for propagation.

These regulations allow small lots of seed to be imported into the United States under an import permit with specific conditions, including seed packet labeling, as an alternative to a phytosanitary certificate requirement.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.035576923 hours per response.

Respondents: Importers, horticultural societies, arboreta, and small business.

Estimated annual number of respondents: 1,600.

Estimated annual number of responses per respondent: 13.

Estimated annual number of responses: 20,800.

Estimated total annual burden on respondents: 740 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 19th day of December 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
