

with a PBGC-initiated termination. The provisions also require PBGC to disclose the administrative record relating to a PBGC-initiated termination upon request by an affected party.

Based on information for calendar years 2014–2016, PBGC estimates that approximately 75 plans will terminate as distress or PBGC-initiated terminations each year. A survey conducted by PBGC of nine plans found that two of the nine plans surveyed received requests for termination information. Based on the foregoing, PBGC estimates that two participants or other affected parties of every nine distress terminations or PBGC-initiated terminations filed will annually make requests for termination information, or $\frac{2}{9}$ of 75 (approximately 17 per year). Based on information derived from the survey of nine plans, PBGC estimates that the hourly burden and cost for each request will be about 20 hours and \$400. The total annual burden is estimated to be 340 hours (17 plans * 20 hours) and \$6,800 (17 plans * \$400).

PBGC is soliciting public comments to—

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.
