Summary of Information Collection

NCA CASI/AdvancED is the largest accreditation organization in the United States, covering 30 states and 65 countries. As part of the accreditation process, NCA CASI/AdvancED conducts Quality Assurance Review (QAR) visits to DoDEA schools in February and April of each year on a rotating schedule that ensures that each school is evaluated within a 5-year cycle. The visits are two days in length in order to gather data, information, and evidence to accomplish the following:

- Evaluate adherence to the AdvancED standards;
- Provide high quality feedback in the form of commendations and recommendations; and
- Determine an accreditation status recommendation.

The Quality Assurance Review team's interview process includes students and parents/guardians. The purpose of the interview session is to help the Quality Assurance Review team gain a deeper understanding of the school improvement process at the school. The review team uses the information to review how well each school is progressing, provide commendations on areas in which each school is excelling, and recommendations that will help each school continuously improve. The review team also uses the information gathered to make an accreditation status recommendation at the end of the visit.

Annual Burden Hours: 2660.
Number of Respondents: 95.
Responses per Respondent: 4.
Average Burden per Response: 7 hours.

Frequency: Quarterly.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Each cooperative agreement award recipient submitted goals and objectives in their application that were subsequently incorporated into their cooperative agreement awards. The level of achievement of these goals and the funds expended in the process of conducting the program is measured by the report. The government's continued funding of a cooperative agreement and the decision to exercise an option award for a cooperative agreement award is based to a significant degree on the award holder's current performance as measured by the report. Information from the report is also used to identify programs that may be in need of assistance and/or increased surveillance.
