

Institutional Student Information Record (ISIR).
ED and FSA seek OMB approval of all application components as a single

“collection of information.” The aggregate burden will be accounted for under OMB Control Number 1845–0001.

The specific application components, descriptions, and submission methods for each are listed in Table 1.

TABLE 1—FEDERAL STUDENT AID APPLICATION COMPONENTS

Component	Description	Submission method
Initial Submission of FAFSA form		
<i>fafsa.gov</i>	Any applicant with a Federal Student Aid ID (FSA ID) can complete the electronic version of the FAFSA form.	Submitted by the applicant.
Printed FAFSA form	The printed version of the FAFSA PDF for applicants who are unable to access the internet or complete the form using <i>fafsa.gov</i> .	Mailed by the applicant.
Correcting and Reviewing Submitted FAFSA information		
<i>fafsa.gov</i> —Corrections	Any applicant with an FSA ID—regardless of how they originally applied—may make corrections to their own data. Note that no user will be able to make corrections to any federal tax information (FTI) that was obtained from the IRS.	Submitted by the applicant.
Electronic Other—Corrections.	With the applicant's permission, corrections can be made by an FAA (Financial Aid Administrator) using the Electronic Data Exchange (EDE).	The FAA may be using their mainframe computer or software to facilitate the EDE process.
Paper FAFSA Submission Summary.	The paper summary is mailed to paper applicants who did not provide an email address. Applicants can write corrections directly on the paper FAFSA Submission Summary and mail for processing. Note that users for whom federal tax information (FTI) was obtained from the IRS will not be able to make corrections to that data.	Mailed by the applicant.
FAFSA Partner Portal (FPP)—Corrections.	An institution can use FPP to correct the FAFSA form	Submitted by an FAA on behalf of an applicant.
Internal Department Corrections.	The Department will submit an applicant's record for system-generated corrections to the FAFSA Processing System. There is no burden to the applicants under this correction type as these are system-based corrections.	These corrections are system-generated.
FAFSA Submission Summary—electronic.	The electronic FAFSA Submission Summary is an online version of the FAFSA Submission Summary that is available on <i>fafsa.gov</i> to all applicants. Notification for the FAFSA Submission Summary is sent to students who applied electronically or by paper and provided a valid email address. These notifications are sent by email and include a secure hyperlink that takes the user to the <i>fafsa.gov</i> site.	Cannot be submitted for processing.

This information collection also documents an estimate of the annual public burden as it relates to the application process for federal student aid. The Applicant Burden Model (ABM) measures applicant burden through an assessment of the activities each applicant conducts in conjunction with other applicant characteristics and, in terms of burden, the average applicant's experience. Key determinants of the ABM include:

- The total number of applicants that will potentially apply for federal student aid;
- How the applicant chooses to complete and submit the FAFSA form (e.g., by paper or electronically);
- How the applicant chooses to submit any corrections and/or updates (e.g., the paper FAFSA Submission Summary or electronically);
- The type of FAFSA Submission Summary document the applicant receives (paper or electronic);
- The formula applied to determine the applicant's student aid index (SAI); and

- The average amount of time involved in preparing to complete the application.

The ABM is largely driven by the number of potential applicants for the application cycle. The total application projection for 2026–2027 is based on the projected total enrollment into post-secondary education for Fall 2026. The ABM is also based on the application options available to students and parents. ED accounts for each application component based on analytical tools, survey information and other ED data sources.

For 2026–2027, ED is reporting a net burden decrease of 2,004,707 hours.

BILLING CODE 4000–01–P

DEPARTMENT OF EDUCATION

Withdrawal of Notice Inviting Applications and Cancellation of the Competition for the Expanding Opportunity Through Quality Charter Schools Program (CSP)—Grants to Charter Management Organizations for the Replication and Expansion of High-Quality Charter Schools (CMO Grants)

AGENCY: Office of Elementary and Secondary Education, Department of Education.

ACTION: Notice; withdrawal.

SUMMARY: The Department of Education (Department) withdraws the notice inviting applications (NIA) for fiscal year (FY) 2025 for CSP CMO Grants.

DATES: The NIA published in the **Federal Register** on January 21, 2025 (90 FR 7119), is withdrawn and the competition cancelled as of February 4, 2025.

FOR FURTHER INFORMATION CONTACT: Stephanie S. Jones, U.S. Department of Education, 400 Maryland Avenue SW, Washington, DC 20202–5970.

Telephone: (202) 453-7835. Email: CMOCompetition@ed.gov.

If you are deaf, hard of hearing, or have a speech disability and wish to access telecommunications relay services, please dial 7-1-1.

SUPPLEMENTARY INFORMATION: On January 21, 2025, the Department published NIAs for two programs in the CSP in the **Federal Register**, one of which is for the FY 2025 CMO Grants, Assistance Listing Number (ALN) 84.282M. The Department is withdrawing this NIA as part of a comprehensive review of recently published FY 2025 CSP NIAs. This reevaluation aims to ensure that all priorities and requirements for the FY 2025 CSP competitions align with the program priorities set by the Trump Administration, comply with Executive orders issued since January 20, 2025, and promote consistency across all CSP grant programs. The Department has also determined that aligning all CSP grant competitions will ensure greater impact on students and families. Additionally, alignment of CSP priorities will increase the economic impact of the Federal education funds awarded for the CSP.

The Department intends to announce a new NIA for CMO Grants, ALN 84.282M in FY 2025. This NIA will unleash innovation, minimize excessive and unnecessary oversight, and lessen the reporting burden for both applicants and grant recipients. By adopting this streamlined approach, the Department is committed to maximizing the impact of its funding efforts while creating a more efficient application process.

The Department does not expect that withdrawing this NIA will significantly impact our ability to make grant awards for FY 2025 under this competition because the Administration anticipates issuing a new NIA in the near future.

Intergovernmental Review: This program is subject to Executive Order 12372 and the regulations in 34 CFR part 79.

Accessible Format: On request to the program contact person listed under **FOR FURTHER INFORMATION CONTACT**, individuals with disabilities can obtain this notice and the NIA in an accessible format. The Department will provide the requestor with an accessible format that may include Rich Text Format (RTF) or text format (txt), a thumb drive, an MP3 file, braille, large print, audiotope, compact disc, or other accessible format.

Electronic Access to This Document: The official version of this document is the document published in the **Federal Register**. You may access the official edition of the **Federal Register** and the

Code of Federal Regulations at www.govinfo.gov. At this site, you can view this document, as well as all other Department documents published in the **Federal Register**, in text or Portable Document Format (PDF). To use PDF, you must have Adobe Acrobat Reader, which is available free at the site.
