

Notices

Federal Register

Vol. 88, No. 95

Wednesday, May 17, 2023

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS–2020–0105]

Importation of Fresh Pumpkin, Squash, and the Hybrid Tetsukabuto From Brazil Into the Continental United States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability.

SUMMARY: We are advising the public that we have prepared a pest risk analysis that evaluates the risks associated with importation of fresh pumpkin, squash, and the interspecific hybrid tetsukabuto from Brazil into the continental United States. Based on the analysis, we have determined that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh pumpkin, squash, and tetsukabuto from Brazil. We are making the pest risk analysis available to the public for review and comment.

DATES: We will consider all comments that we receive on or before July 17, 2023.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to www.regulations.gov. Enter APHIS–2020–0105 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2020–0105, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road, Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket

may be viewed at www.regulations.gov or in our reading room, which is located in room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: Ms. Claudia Ferguson, Senior Regulatory Policy Specialist, Regulatory Coordination and Compliance, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737–1231; (301) 851–2352.

SUPPLEMENTARY INFORMATION:

Background

Under the regulations in “Subpart L—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–12, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into or disseminated within the United States.

Section 319.56–4 contains a performance-based process for approving the importation of fruits and vegetables that, based on the findings of a pest risk analysis, can be safely imported subject to one or more of the five designated phytosanitary measures listed in paragraph (b) of that section.

APHIS received a request from the national plant protection organization (NPPO) of Brazil to allow the importation of fresh pumpkin (*Cucurbita moschata*), squash (*Cucurbita maxima*), and the interspecific hybrid tetsukabuto (*C. moschata* × *C. maxima*) from Brazil into the continental United States. Currently, the importation of those items is not authorized. As part of our evaluation of Brazil’s request, we have prepared a pest risk assessment to identify the pests of quarantine significance that could follow the pathway of the importation of fresh pumpkin, squash, and tetsukabuto into the continental United States from Brazil. Based on the pest risk assessment, a risk management document (RMD) was prepared to identify phytosanitary measures that could be applied to those commodities to mitigate the pest risk.

Therefore, in accordance with § 319.56–4(c), we are announcing the availability of our pest risk assessment and RMD for public review and comment. Those documents, as well as a description of the economic considerations associated with the importation of fresh pumpkin, squash, and tetsukabuto from Brazil, may be viewed on the Regulations.gov website or in our reading room (see **ADDRESSES** above for a link to Regulations.gov and information on the location and hours of the reading room). You may request paper copies of the pest risk assessment and RMD by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the subject of the analysis you wish to review when requesting copies.

After reviewing any comments we receive, we will announce our decision regarding the importation status of fresh pumpkin, squash, and tetsukabuto from Brazil in a subsequent notice. If the overall conclusions of our analysis and the Administrator’s determination of risk remain unchanged following our consideration of the comments, then we will authorize the importation of fresh pumpkin, squash, and tetsukabuto from Brazil into the continental United States subject to the requirements specified in the RMD.

Authority: 7 U.S.C. 1633, 7701–7772, and 7781–7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 12th day of May 2023.

Michael Watson,

Acting Administrator, Animal and Plant Health Inspection Service.

[Docket No. APHIS–2023–0043]

Notice of Request for Extension of Approval of an Information Collection; Volunteer Service Agreements and Volunteer Service Time and Attendance Record

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with volunteer service agreements and volunteer service time and attendance record.

DATES: We will consider all comments that we receive on or before July 17, 2023.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to www.regulations.gov. Enter APHIS–2023–0043 in the search field. Select the Documents tab, then select the Comment button in the list of documents.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2023–0043, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road, Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at regulations.gov or in our reading room, which is located in Room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on volunteer service agreements and volunteer service time and attendance record, contact Ms. Martha Gravagna, Human Resources Specialist, HR Policy, HRD, MRPBS, APHIS, 250 Marquette Avenue, Suite 410, Minneapolis, MN 55401; (612) 336–3355. For detailed information on the information collection process, contact Mr. Joseph Moxey, APHIS' Paperwork Reduction Act Coordinator, at (301) 851–2533; joseph.moxey@usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Volunteer Service Agreements and Volunteer Service Time and Attendance Record.

OMB Control Number: 0579–0477.

Type of Request: Extension of approval of an information collection.

Abstract: Section 1526 of the Food and Agricultural Act of 1981 (7 U.S.C. 2272) permits the Secretary of Agriculture to establish a program to use volunteers to carry out U.S. Department

of Agriculture (USDA) programs. Departmental Regulation No. 4230–001, Volunteer Programs, provides the guidelines USDA agencies must use for acceptance of volunteers and sets a requirement for agencies to publish their guidelines. Office of Personnel Management (OPM) regulations in 5 CFR part 308 provide agencies with the authority to establish programs designed to provide educationally related volunteer assignments for students in non-pay status.

The Marketing and Regulatory Programs (MRP) mission area of USDA uses several information collection activities to assist MRP program officials, administrative personnel, and USDA Human Resources offices in determining a volunteer's eligibility and suitability for volunteer service. The information is necessary to facilitate establishment of guidelines for acceptance of volunteer services under the above authorities and regulations, determine an individual's eligibility and suitability to serve as a volunteer in MRP, and comply with OPM regulations requiring documentation of volunteer service and maintenance of records.

Information is collected using two information collection requests, one for students and one for non-student volunteers, that ask for personal data, citizenship or immigration status, and student status (if applicable). A third collection request is used to document the dates on which volunteer service from all volunteers is rendered, the location, and the amount of time the volunteer spent performing those duties.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection

technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.59 hours per response.

Respondents: Individuals engaged in activities for which they are not paid, except for authorized expenses associated with performance of volunteer activities.

Estimated annual number of respondents: 86.

Estimated annual number of responses per respondent: 3.

Estimated annual number of responses: 256.

Estimated total annual burden on respondents: 151 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 11th day of May 2023.

Michael Watson,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410–34–P

DEPARTMENT OF AGRICULTURE

Forest Service

Information Collection; Wood Innovations Funding Opportunity Program (CFDA 10.674)

AGENCY: Forest Service, Agriculture (USDA).

ACTION: Notice; request for comment.

SUMMARY: The grants and agreements awarded under this announcement will support the Agriculture Improvement Act of 2018, Rural Revitalization Technologies, Infrastructure Investment and Jobs Act (commonly known as the Bipartisan Infrastructure Law), Inflation Reduction Act of 2022, and the nationwide challenge of disposing of hazardous fuels and other wood residues from the National Forest System lands and other forest lands in a manner that supports wood products and wood energy markets. The intent of the Wood Innovations funding opportunity is to stimulate, expand, and support U.S. wood products markets and wood energy markets to support the long-term management of National Forest System and other forest lands.

DATES: Comments related to the collection of information must be
