SUPPLEMENTARY INFORMATION:

Background

The GPRA holds federal agencies accountable for using resources wisely and achieving program results. Specifically, GPRA requires agencies to develop: *Strategic Plans*, which include a mission statement and set out long-term goals, objectives, and strategic measures over a five-year time horizon; *Annual Performance Plans*, which provide annual performance measures toward achieving the goals and objectives set forth in the *Strategic Plan*; and, *Performance and Accountability Reports*, which evaluate an agency's success in achieving the annual performance measures.

The *Draft FY 2011–2015 EPA Strategic Plan* reflects the Administrator's priorities for advancing environmental protection. The *Plan* presents five strategic goals to accelerate protection of the environment and human health and five cross-cutting fundamental strategies for changing the way the Agency works. The five strategic goals are: Taking Action on Climate Change and Improving Air Quality, Protecting America's Waters, Cleaning Up Our Communities, Ensuring the Safety of Chemicals and Preventing Pollution, and Enforcing Environmental Laws. The five cross-cutting fundamental strategies are: Expanding the conversation on environmentalism; working for environmental justice and children's health; advancing science, research, and technological innovation; strengthening state, tribal, and international partnerships; and strengthening EPA's workforce and capabilities. The *Plan* also identifies a suite of strategic

measures by which the Agency will hold itself accountable.
