

Alaska Natives, and a majority of whom shall be from rural Alaska.

FY 07 Outputs & Outcomes: Specific outputs have not been recorded for the Program. To date output data has been generated on a project-by-project basis as it related to economic investment, development, job creation, income enhancement, quality of life, etc.

Output and outcome goals related to increased access and reduction in cost are anticipated for FY 08 and will be developed in response to the Program Evaluation and pending Strategic Planning efforts, and in concert with the development of the Program's Advisory Committee.

Government Coordination

Program Background: The Commission is charged with the special role of increasing the effectiveness of government programs by acting as a catalyst to coordinate the many federal and state programs that serve Alaska. The Commission led the way by committing state, federal, and non-profit organizations and agencies to this effort in jointly signing a Memorandum of Understanding (MOU). This MOU outlines the role of agencies in coordinating resources and efforts in areas such as community planning, sustainability, information technology and data sharing and coordination of pre-construction activities. This MOU served as the basis for the creation of several multi-agency work groups and cooperative projects that have served to increase the agencies' collective effectiveness. The MOU was amended in 2003 with increased participation from both the state and federal partners.

FY 07 Program Goals: The Commission is planning to begin work on a revised MOU in FY 07 and anticipates further broadening the partner and signatory list to include members of the philanthropic, development and Community Development Quota (CDQ) groups. In addition the Commission is working actively with other federal and state partners to evaluate the current MOU workgroups, update membership as necessary and continue critical discussions related to infrastructure, community planning and collaborative funding and project selection.

Pursuant to Section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the
