SUPPLEMENTARY INFORMATION:

Title: 7 CFR part 340; Introduction of Organisms and Products Altered or Produced Through Genetic Engineering. *OMB Number:* 0579-0085.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, article, or means of conveyance, if the Secretary determines that the prohibition or restriction is necessary to prevent the introduction or the dissemination of a plant pest into the United States.

Under that authority, the U.S. Department of Agriculture's Animal and Plant Health Inspection Service (APHIS) has established regulations in 7 CFR part 340, "Introduction of Organisms and Products Altered or Produced Through Genetic Engineering Which Are Plant Pests or Which There Is Reason to Believe Are Plant Pests." The regulations govern the introduction (importation, interstate movement, or release into the environment) of covered genetically engineered organisms and products ("regulated articles"). A permit must be obtained or a notification acknowledged before a regulated article may be introduced.

The regulations set forth the permit application requirements and the notification procedures for the importation, interstate movement, or release into the environment of a regulated article and necessitate certain information and recordkeeping requirements, including APHIS-issued permits, applicants' field testing records, and the submission of protocols to ensure compliance.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:
