relating to this hazard. In fact, only a small sample of tornadoes ever receive study, and most often those are only the largest tornadoes. No generalizable information on tornado warning response after real-world events exists. The National Weather Service (NWS) and National Severe Storms Laboratory have designed this data collection instrument to allow for more routine collection of this information. Respondents will include members of the U.S. public who have recently (within the previous 30 days) been in or near a tornado, and they will be asked questions about the ways they received, understood, and responded to NWS watch/warning information. The information would be collected by NWS forecasters using their Damage Assessment Tool (DAT) and also by members of the public who voluntarily access a web tool developed by the National Severe Storms Laboratory. The information will be used as part of a pilot study to explore methods for more systematically collecting post-event data in support of program evaluation for NOAA's tornado watch/warning system.

Affected Public: Individual Households.

Frequency: Whenever a tornado impacts an individual anywhere within the United States of America.

Respondent's Obligation: Voluntary.

Legal Authority: This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering the title of the collection.

Sheleen Dumas,

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Groundfish Committee via webinar to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This webinar will be held on Wednesday, August 18, 2021 at 9:30 a.m. Webinar registration URL information: https://attendee.gotowebinar.com/register/5983603167717034766.

ADDRESSES: Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT:

Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465–0492.

SUPPLEMENTARY INFORMATION:

Agenda

The Groundfish Committee will meet to discuss development of draft Framework Adjustment 63/ Specifications and Management Measures: Set 2022 total allowable catches for US/Canada management units of Eastern Georges Bank (GB) cod and Eastern GB haddock, and 2022-23 specifications for the GB yellowtail flounder stock: Set 2022-24 specifications for GB cod and Gulf of Maine (GOM) cod, and possibly adjust 2022 specifications for GB haddock and GOM haddock. They will adjust 2022 specifications for white hake based on the rebuilding plan. They will adopt additional measures to promote stock rebuilding, and develop alternatives to the current default system. Also on the agenda is discussion of progress on 2021 Council priorities for groundfish. There will be a preliminary discussion of possible 2022 Council priorities for groundfish. Other business will be discussed as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465–0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 et seq.

Dated: July 27, 2021.

Tracev L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service. [FR Doc. 2021–16272 Filed 7–29–21; 8:45 am]

Determination of Overfishing or an Overfished Condition

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: This action serves as a notice that NMFS, on behalf of the Secretary of Commerce (Secretary), has found that Southern Atlantic gag is now subject to overfishing and is now overfished; Southern Atlantic snowy grouper and Gulf of Mexico greater amberjack are now subject to overfishing and are still overfished; Klamath River fall-run Chinook salmon, Queets coho salmon, Strait of Juan de Fuca coho salmon, Northwestern Atlantic Coast ocean pout, Gulf of Maine/Georges Bank Atlantic wolffish, and Pribilof Island blue king crab are still overfished; Southern Atlantic red snapper is still subject to overfishing and overfished; and Hood Canal coho salmon is now approaching

an overfished condition. NMFS, on behalf of the Secretary, notifies the appropriate regional fishery management council (Council) whenever it determines that a stock or stock complex is subject to overfishing, overfished, or approaching an overfished condition.

FOR FURTHER INFORMATION CONTACT: Kathryn Frens, (301)–427–8523.

supplementary information: Pursuant to section 304(e)(2) of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1854(e)(2), NMFS, on behalf of the Secretary, must notify Councils, and publish a notice in the Federal Register, whenever it determines that a stock or stock complex is subject to overfishing, overfished, or approaching an overfished condition.

NMFS has determined that Gulf of Mexico greater amberjack is now subject to overfishing and is still overfished. This determination is based on the most recent assessment, completed in 2021 and using data through 2018, which indicates that this stock is subject to overfishing because the fishing mortality rate was above the threshold, and is still overfished because the biomass is below the threshold. NMFS has notified the Gulf of Mexico Fishery Management Council of the requirement to end overfishing and to rebuild this stock.

NMFS has determined that Southern Atlantic gag is now both subject to overfishing and overfished, that Southern Atlantic snowy grouper is now subject to overfishing and is still overfished, and that Southern Atlantic red snapper is still both subject to overfishing and overfished. The determinations for gag and red snapper are based on the most recent assessments, completed in 2021 using data through 2019, which indicate that these stocks are subject to overfishing because the fishing mortality rates are above the respective thresholds and the biomasses are below the respective thresholds. The determination for snowy grouper is based on the most recent update assessment, completed in 2021 using data through 2018, which indicates that the stock is subject to overfishing because the fishing mortality rate is above the threshold, and is still overfished because the biomass is below the threshold. NMFS has notified the South Atlantic Fishery Management Council of the requirement to end overfishing and to rebuild these stocks.

NMFS has determined that Northwestern Atlantic Coast ocean pout and Gulf of Maine/Georges Bank Atlantic wolffish are still overfished. These determinations are based on the most recent assessments, completed in 2020 using data through 2019, which indicate that the stocks are overfished because their biomasses are below the respective thresholds. NMFS continues to work with the New England Fishery Management Council to rebuild these stocks.

NMFS has determined that Klamath River fall-run Chinook salmon, Queets coho salmon, and Strait of Juan de Fuca coho salmon are still overfished, and that Hood Canal coho salmon is now approaching an overfished condition. These determinations are based on the most recent assessments, completed in 2021 and using data from 2018-2020 for Klamath River fall-run Chinook salmon, data from 2017-2019 for Queets and Juan de Fuca coho salmon, and data from 2018-2019 and 2021 for Hood Canal coho salmon. The determination of overfished for the first three stocks is based on the three-year geometric mean of the annual spawning escapement for each stock falling below its respective overfished threshold. The determination of approaching an overfished condition for Hood Canal coho salmon is based on the three-year geometric mean of the two most recent postseason estimates of spawning escapement (2018-2019), and the current preseason forecast of spawning escapement (2021), falling below the threshold. Of these four salmon stocks, only the Chinook stock is domestically managed. The Council has limited ability to control fisheries for the three internationally-managed coho stocks in waters outside its jurisdiction. NMFS continues to work with the Pacific Council to rebuild these stocks, and has notified the Pacific Council of the requirement to prevent the Hood Canal coho salmon stock from becoming overfished.

NMFS has determined that Pribilof Island blue king crab is still overfished. This determination is based on the most recent assessment, completed in 2021 using data through 2021, which indicates that the stock is overfished because the biomass estimate remains below its threshold. NMFS continues to work with the North Pacific Fishery Management Council to rebuild this stock.

Dated: July 27, 2021.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service. [FR Doc. 2021–16293 Filed 7–29–21; 8:45 am]

BILLING CODE 3510-22-P

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Proposed Additions and Deletions

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Proposed additions to and deletions from the Procurement List.

SUMMARY: The Committee is proposing to add service(s) to the Procurement List that will be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities, and deletes product(s) previously furnished by such agencies.

DATES: Comments must be received on or before: August 29, 2021.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, 1401 S Clark Street, Suite 715, Arlington, Virginia 22202–4149.

FOR FURTHER INFORMATION CONTACT: For further information or to submit comments contact: Michael R. Jurkowski, Telephone: (703) 785–6404, or email *CMTEFedReg@AbilityOne.gov*.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 8503(a)(2) and 41 CFR 51–2.3. Its purpose is to provide interested persons an opportunity to submit comments on the proposed actions.

Additions

If the Committee approves the proposed additions, the entities of the Federal Government identified in this notice will be required to procure the product(s) and service(s) listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

The following service(s) are proposed for addition to the Procurement List for production by the nonprofit agencies listed:

Service(s)

Service Type: Contractor Operated Civil Engineer Supply Store.

Mandatory for: U.S. Air Force, 9th Civil
Engineering Squadron, Beale AFB, CA.
Designated Source of Supply: Industries for
the Blind and Visually Impaired, Inc.,
West Allis, WI.

Contracting Activity: DEPT OF THE AIR FORCE, FA4686 9 CONS LGC.

Deletions

The following product(s) are proposed for deletion from the Procurement List:

Product(s)

NSN(s)—Product Name(s): 7520–00–286–1725—File, Sorter, Legal, A–Z, Blue
