

Based on information provided by the AAR, it appears that the ECXX cars are owned and operated by ECDC Environmental located in Salt Lake City, Utah, and the DTTX car is owned by Trailer Train Company in Chicago, Illinois.

At this time, FRA is not aware of any derailments attributed to the center sill failures on any of these cars. However, due to the severity and nature of the cracking and breaks in the center sills of these flat cars, and the high density traffic corridors in which the cars operate, FRA feels compelled to advise car owners and operating railroads of the potential for catastrophic failures and/or derailments involving these cars. FRA mechanical field inspectors will be conducting periodic nationwide inspections of this equipment to ascertain the magnitude of the car population and to gather further information regarding any failures. At this time, it appears that many of the above noted cars may have been overloaded or compacted, which may have contributed to center sill cracking and failure. Additional supplements to this Safety Advisory may follow as cause of the cracking and remedial measures are identified.

Recommended Action

In recognition of the need to ensure safety, FRA recommends that railroads and car owners carefully inspect the center sills of all flat cars used to carry containers of MSW. FRA further recommends that any such car found with a crack or cracks of any size in the center sill area be immediately bad ordered and sent to an appropriate shop for repairs consistent with quality shop repair.

Failure of car owners and railroads to voluntarily take action consistent with the above recommendation may result in FRA pursuing other corrective measures to enforce public safety under its rail safety authority. FRA may modify Safety Advisory 2006-06, issue additional safety advisories, or take other appropriate action necessary to ensure the highest level of safety on the nation's railroads.

Issued in Washington, DC on January 3, 2007.

Jo Strang,

Associate Administrator for Safety.

SUPPLEMENTARY INFORMATION:

Title: Verification of VA Benefits, VA Form 26-8937.

OMB Control Number: 2900-0406.

Type of Review: Extension of a currently approved collection.

Abstract: Lenders authorized to make VA-guaranteed home or manufactured loans on an automatic basis are required to determine through VA whether any benefits related debts exist in the veteran-borrower's name prior to the closing of any automatic loan. Lenders cannot close any proposed automatic loan until evidence is received from VA stating that there is no debt, or if a debt exists, or the veteran has agreed on an acceptable repayment plan, or payments under a plan already in effect are current. VA Form 26-8937 is used to assist lenders and VA in the completion of debt checks in a uniform manner. The form restricts information requested to only that is needed for the debt check and to eliminate unlimited versions of lender-designed forms. The form also informs the lender whether or not the veteran is exempt from paying the funding fee, which must be collected on all VA home loans unless the veteran is receiving service-connected disability compensation.
