Northern States Power Company; Notice of Environmental Site Review

On September 27, 2023, at 3:00 p.m. (Central Daylight Time), Commission staff and Northern States Power Company (Northern States Power), the applicant for the Gile Flowage Storage Reservoir Project No. 15055 (project), will conduct an environmental site review of the project. All interested individuals, agencies, Indian Tribes, non-governmental organizations, and other stakeholders are invited to attend.

The site review will include the project dam, spillway, impoundment, and recreational facilities associated with the project, and will commence at the adjacent Gile Park. Please note that all participants are responsible for their own transportation to/from the project and during the site review tour. If you are interested in attending, or have questions regarding the site review, please contact Matthew Miller of Northern States Power via email at matthew.j.miller@xcelenergy.com, or

telephone at (715) 737-1353 on or before Friday, September 22, 2023.

Participants will meet at Gile Park located at 14 Park Street, Gile, Wisconsin 54525. Participants should arrive early for coordination purposes and to begin the tour promptly at 3:00 p.m. Additionally, participants must wear sturdy, closed-toe shoes, or boots.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. [Docket No. CP23-29-000]

Saguaro Connector Pipeline, LLC; Notice of Availability of the Environmental Assessment for the Proposed Saguaro Connector Pipeline Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Saguaro Connector Pipeline Project (Project), proposed by Saguaro Connector Pipeline, LLC (Saguaro) in the above referenced docket. Saguaro requests authorization from the Commission to construct, install, operate, and maintain an approximate 1,000-foot, 48-inch-diameter natural gas pipeline in Hudspeth County, Texas. The proposed Project would cross the United States and Mexico International Boundary below the Rio Grande. According to Saguaro, the Project would serve as an interconnection to transport natural gas produced in Texas to a pipeline in Chihuahua, Mexico. The 48-inch-diameter natural gas pipeline is designed for a capacity of 2.834 billion standard cubic feet per day. The Project would not have permanent aboveground facilities.

The EA assesses the potential environmental effects of the construction and operation of the Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The Project includes the following components:

- approximately 1,000 feet of 48-inch-diameter natural gas pipeline;
- approximately 1,000 feet of 50-foot-wide permanent right-of-way;
- additional temporary workspaces (total of 14.2 acres); and
- 6.9 miles of temporary access road (Indian Hot Springs Road).

The Commission mailed a copy of the *Notice of Availability* of the EA to Federal, State, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the project area. The EA is only available in electronic format. It may be viewed and downloaded from the FERC's website (www.ferc.gov), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>). In addition, the EA may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>) select "General Search" and enter the docket number in the "Docket Number" field, excluding the last three digits (*i.e.*, CP23-29). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

The EA is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Any person wishing to comment on the EA may do so. Your comments should focus on the EA's disclosure and discussion of potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to

making its decision on this Project, it is important that we receive your comments in Washington, DC on or before 5:00 p.m. Eastern Time on September 25, 2023.

For your convenience, there are three methods you can use to file your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208-3676 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions, so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature on the Commission's website (www.ferc.gov) under the link to FERC Online. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's website (www.ferc.gov) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(1) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the project docket number (CP23-29-000) on your letter. Submissions sent via the U.S. Postal Service must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

Filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered. Only intervenors have the right to seek rehearing or judicial review of the Commission's decision. At this point in this proceeding, the timeframe for filing timely intervention requests has expired. Any person seeking to become a party to the proceeding must file a motion to intervene out-of-time pursuant to Rule 214(b)(3) and (d) of the Commission's Rules of Practice and Procedures (18 CFR 385.214(b)(3) and (d)) and show good cause why the time limitation should be waived. Motions to intervene are more fully described at <https://www.ferc.gov/how-intervene>.

Additional information about the Project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or OPP@ferc.gov.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.
