[Docket No. APHIS–2018–0091]

### Decision To Revise Import Requirements for the Importation of Fresh Citrus From South Africa Into the United States

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Notice.

**SUMMARY:** We are advising the public of our decision to revise the import requirements for citrus (grapefruit, lemon, mandarin orange, sweet orange, tangelo, and Satsuma mandarin) fruit from South Africa into the United States. Based on the findings of a commodity import evaluation document (CIED), which we made available to the public for review and comment through a previous notice, we are removing restrictions on the ports of entry into which such citrus may be imported. This action will allow these citrus species to be imported into more ports in the United States without presenting a risk of introduction or dissemination of plant pests or noxious weeds.

**DATES:** The articles covered by this notification may be authorized for importation under the revised requirements after November 5, 2020.

**FOR FURTHER INFORMATION CONTACT:** Mr. Tony Roman, Senior Regulatory Policy Specialist, Regulatory Coordination and Compliance, IRM, PHP, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737–1236; (301) 851–2242; [Juan.A.Roman@usda.gov](mailto:Juan.A.Roman@usda.gov).

**SUPPLEMENTARY INFORMATION:** Under the regulations in “Subpart L—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–12, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into and spreading within the United States.

Section 319.56–4 of the regulations provides the requirements for authorizing the importation of fruits and vegetables into the United States, and it revises existing requirements for the importation of fruits and vegetables.
