information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by April 12, 2004.

ADDRESSES: Written comments and recommendations on the proposed information collection should be sent to Department of the Army, U.S. Army Corps of Engineers, Institute for Water Resources, Corps of Engineers, Waterborne Commerce Statistics Center, P.O. Box 61280, New Orleans, LA 70161–1280, ATTN: CEWRC–NDC–C (Doug Blakemore). Consideration will be given to all comments received within 60 days of the date of publication of this notice.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the above address, or call Department of the Army Reports Clearance Officer at (703) 325–8433.

Title, Associated Form, and OMB Number: Record of Arrivals and Departures of Vessels at Marine Terminals, ENG Form 3926, OMB Control Number 0710–0005.

Needs and Uses: The Corps of Engineers uses ENG Form 3926 in conjunction with ENG Form 3925, 3925B, and 3925P as the basic source of input to conduct the Waterborne Commerce Statistics data collection program. The annual publications "Waterborne Commerce of the United States, Parts 1–5" are the results of this program.

Affected Public: Business Or Other For-Profit.

Annual burden Hours: 2,500. Number of Respondents: 400. Responses per Respondent: 5,400. Average Burden per Response: 5 ninutes.

Frequency: Monthly.

SUPPLEMENTARY INFORMATION: The Corps of Engineers uses ENG Form 3926 as a quality control instrument by comparing the data collected on the Corps Vessel Operation Report with that collected on 3926. The information is voluntarily submitted by the respondents to assist the Waterborne Commerce Statistics Center in the identification of vessel operators who fail to report significant vessel moves and tonnage. This information is invaluable in documenting the movement of petroleum products out of Valdez,

Alaska. Without the information furnished on the ENG Form 3926 at least 50,000,000 tons of petroleum products would go unreported each year.
