

accounting of funds received under this announcement.

Review and Selection Process

Each application submitted to the OPHS Office of Grants Management will be screened to determine whether it was received by the closing date and time.

The results of a competitive review are a primary factor in making funding decisions. In addition, Federal staff will conduct administrative reviews of the applications and, in light of the results of the competitive review, will recommend applications for funding to the ASH. The ASH may also solicit and consider comments from Office of Public Health and Science staff and others within DHHS in making funding decisions. Final grant awards decisions will be made by the ASH. The ASH will fund those projects which will, in his/her judgment, best promote the purposes of this program, within the limits of funds available for such projects.

VI. Award Administration Information

1. Award Notices

The OPHS does not release information about individual applications during the review process. When final decisions have been made, successful applicants will be notified by letter of the outcome of the final funding decisions. The official document notifying an applicant that a project as been approved for funding is the Notice of Grant Award (NGA), signed by the OPHS Grants Management Officer, which sets forth the amount of funds granted, the terms and conditions of the award, the effective date of the grant, the budget period for which initial support will be given, and the total project period for which support is contemplated. The ASH will notify an organization in writing when its application will not be funded. Every effort will be made to notify all unsuccessful applicants as soon as possible after final decisions are made.

2. Administrative and National Policy Requirements

In accepting this award, the grantee stipulates that the award and any activities thereunder are subject to all provisions in 45 CFR parts 74 (non-governmental) and 92 (governmental) currently in effect or implemented during the period of the grant.

The DHHS Appropriations Act requires that when issuing statements, press releases, requests for proposals, bid solicitations, and other documents describing projects or programs funded in whole or in part with Federal money,

grantees shall clearly state the percentage and dollar amount of the total costs of the program or project which will be financed with Federal money and the percentage and dollar amount of the total costs of the project or program that will be financed by non-governmental sources.

3. Reporting Requirements

A successful applicant under this notice will submit: (a) Progress reports; (b) annual Financial Status Reports; and (c) a final performance report, including an evaluation report, and Financial Status Report. Reporting formats are established in accordance with provisions of the general regulations which apply under 45 CFR parts 74 and 92. Applicants must submit all required reports in a timely manner, in recommended formats and submit a final report on the project, including any information on evaluation results, at the completion of the project period.

The final performance report should contain an overview of the program from start to finish, including information on: (a) Summary of the project, (b) state of the major goals and objectives of the project, (c) list of significant accomplishments, (d) description of innovative features, (e) statement of significant problems encountered and solutions developed, (f) a complete written disclosure of any invention, curriculum, publication, video, pamphlet conceived or produced as part of the grant funded project, (g) a copy of any products developed in association with the project. The final evaluation report should reflect an assessment of the program. It should describe factors contributing to both program success and problem areas. The report should include a description of the project's objectives, interventions, evaluation model and hypotheses, findings and conclusions. The report should include a summary of the program statistics and findings. It should discuss the implications of project findings as they relate to the project objectives, as well as a set of recommendations based on the findings (where appropriate). The appendices to the evaluation report should include any data collection instruments and relevant references. Copies of any published articles, based on the project or project evaluation findings are also requested.

Agencies receiving \$500,000 or more in total Federal funds are required to undergo an annual audit as described in OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations."

VII. Agency Contacts

Office of Grants Management Contact: Robin Fuller Department of Health and Human Services, Office of Public Health and Science, OPHS Grants Management Office, 1101 Wootton Parkway, Suite 550, Rockville, Maryland, 20852. E-mail: rfuller@osophs.dhhs.gov; telephone: 240-453-8822.
