SUPPLEMENTARY INFORMATION:

Title: Procedures for the Notification of New Technology and Requests for Waivers

OMB Number: 0583-0127.

Expiration Date of Approval: 5/31/2020.

Type of Request: Renewal of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18 and 2.53), as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is announcing its intention to request renewal of the approved information collection regarding the procedures for notifying the Agency about new technology and requests for waivers. There are no changes to the existing information collection. The approval for this information collection will expire on May 31, 2020.

FSIS has established procedures for notifying the Agency of any new technology intended for use in official meat and poultry establishments and egg products plants (68 FR 6873). To follow the procedures, establishments, plants, and firms that manufacture and sell technology to official establishments and egg products plants notify the Agency by submitting documents describing the operation and purpose of the new technology. The documents should explain why the new technology will not (1) adversely affect the safety of the product, (2) jeopardize the safety of Federal inspection personnel, (3) interfere with inspection procedures, or (4) require a waiver of any Agency regulation. If use of the new technology will require a waiver of any Agency regulation, the notice must also identify the regulation and explain why a waiver would be appropriate (9 CFR 303.1(h), 381.3(b), and 590.10). If the new technology could affect FSIS regulations, product safety, inspection procedures, or the safety of inspection program personnel, the establishment or plant would need to submit a written protocol for an in-plant trial as part of a pre-use review. The submitter of a written protocol should provide data to the Agency throughout the duration of the in-plant trial.

FSIS has made the following estimates based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take respondents an average of 8 hours to complete a notification of intent to use new technology if no in-plant trial is necessary. If an in-plant trial is necessary, FSIS estimates that it will take an average of 80 hours to develop a protocol and an average of 80 additional hours to collect data and keep records during the in-plant trial. FSIS estimates it will take respondents an average of 120 hours to collect data and conduct recordkeeping under a waiver.

Respondents: Official meat and poultry establishments and egg product plants; firms that manufacture or sell technology to official establishments and plants.

Estimated Number of Respondents: 75 respondents will submit notifications of intent to use new technology. 50 respondents will develop a protocol for

and conduct an in-plant trial. 50 respondents will collect data and conduct recordkeeping for the duration of the in-plant trial. 35 respondents will collect data and conduct recordkeeping under the waiver.

Estimated Number of Annual Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 12,800 hours.

Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW, Room 6065, South Building, Washington, DC 20250-3700; (202) 720-5627.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the method and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this **Federal Register** publication on-line through the FSIS web page located at: <http://www.fsis.usda.gov/federal-register>.

FSIS will also announce and provide a link to this **Federal Register** publication through the FSIS *Constituent Update*, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The *Constituent Update* is available on the FSIS web page. Through the web page, FSIS can provide information to a much broader, more diverse audience.

In addition, FSIS offers an email subscription service which provides automatic and customized access to selected food safety news and information. This service is available at: <http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves and have the option to password protect their accounts.
