### Regulatory Reinvention (XL) Pilot Projects

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of Availability of Yolo County Accelerated Anaerobic & Aerobic Composting (Bioreactor) Project XL Draft Final Project Agreement.

**SUMMARY:** EPA is today requesting comments on a draft Project XL Final Project Agreement (FPA) for Yolo County, Woodland, California.

**DATES:** The period for submission of comments on the draft FPA ends on September 12, 2000.

**ADDRESSES:** All comments on the draft Final Project Agreement should be sent to: Ms. Sherri Walker, U.S. EPA, 1200 Pennsylvania Avenue, NW (1802), Washington, DC 20460. Comments may also be faxed to Sherri Walker at (202) 260-3125. Comments will also be received via electronic mail sent to [walker.sherri@epa.gov](mailto:walker.sherri@epa.gov).

**FOR FURTHER INFORMATION CONTACT:** To obtain a copy of the draft Final Project Agreement, contact: Mark Samolis, US EPA, Region 9 (SPE-1), 75 Hawthorne Street, San Francisco, California 94105, or Sherri Walker, US EPA, Mail Code 1802, Ariel Rios Building, 1200 Pennsylvania Avenue, NW, Washington, D.C. 20460. The FPA and related documents are also available via the Internet at the following location: "<http://www.epa.gov/ProjectXL>". In addition, project documents are located

at EPA Region 9, at 75 Hawthorne Street, San Francisco, California 94105. Questions to EPA regarding the documents can be directed to Mark Samolis at (415) 744-2331 or Sherri Walker at (202) 260-4295. Additional information on Project XL, including documents referenced in this notice, other EPA policy documents related to Project XL, application information, and descriptions of existing XL projects and proposals, is available via the Internet at "<http://www.epa.gov/ProjectXL>".

**SUPPLEMENTARY INFORMATION:** The FPA is a voluntary agreement developed by Yolo County, the California Regional Water Quality Control Board, Yolo-Solano Air Quality Management District, Solid Waste Association of North America, Institute for Environmental Management, and EPA. Project XL, announced in the **Federal Register** on May 23, 1995 (60 FR 27282), gives regulated entities the opportunity to develop alternative strategies that will replace or modify specific regulatory requirements on the condition that they produce greater environmental benefits. If implemented, some of the superior environmental benefits that Yolo County expects to achieve with this project through anaerobic and aerobic composting process include: improved leachate quality; reduction in the potential for uncontrolled releases of leachate to contaminate the groundwater, or gas to contaminate the air during the post-closure phase (should a containment system failure occur); increased gas yield and capture; reduction or elimination of methane generation in the aerobic composting operation; rapid waste biodegradation and stabilization; increased lifespan of the landfill resulting in less need for construction of additional landfills; reduced post-closure costs; and faster reclamation of land for future use.

One of the legal implementing mechanisms for this project will be a site-specific rule. EPA expects to publish a notice in the **Federal Register** proposing and seeking public comment on a site-specific rule for this project shortly.

Dated: August 23, 2000.

### Intent To Grant an Exclusive Patent License

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of intent to grant an exclusive patent license.

**SUMMARY:** Pursuant to 35 U.S.C. 207 and 37 CFR part 404, EPA hereby gives notice of its intent to grant an exclusive, royalty-bearing revocable license to practice the invention described and claimed in the patent application listed below, all corresponding patents issuing therefrom throughout the world, and all reexamined patents and reissued patents granted in connection with such patent application by Leo A.G. Breton, Bethesda, Maryland. The patent application is:

U.S. Patent Application No. 09/226,920, entitled "Real-Time On-Road Vehicle Exhaust Gas Modular Flowmeter and Emissions Reporting System," filed January 5, 1999.

The invention was announced as being available for licensing in the March 1, 1999 issue of the **Federal Register** (60 FR 20490). The proposed exclusive license will contain appropriate terms, limitations and conditions to be negotiated in accordance with 35 U.S.C. 209 and the U.S. Government patent licensing regulations at 37 CFR part 404.

EPA will negotiate the final terms and conditions and grant the exclusive license, unless within 60 days from the date of this Notice, EPA receives, at the address below, written objections to the grant, together with supporting documentation. The documentation from objecting parties having an interest in practicing the above patent application should include an application for exclusive or nonexclusive license with the information set forth in 37 CFR 404.8. The EPA Patent Counsel and other EPA officials will review all written responses and then make recommendations on a final decision to the Director and Deputy Director, Office of Transportation Air Quality, both of whom have been delegated the authority to issue patent licenses under 35 U.S.C. 207.

**DATES:** Comments to this notice must be received by EPA at the address listed below by October 30, 2000.

**FOR FURTHER INFORMATION CONTACT:** Alan Ehrlich, Patent Counsel, Office of General Counsel (Mail Code 2377A),
