

define the Project-specific Area of Potential Effects (APE) in consultation with the SHPOs as the Project develops. On natural gas facility projects, the APE at a minimum encompasses all areas subject to ground disturbance (examples include construction right-of-way, contractor/pipe storage yards, compressor stations, and access roads). Our EA for this project will document our findings on the impacts on historic properties and summarize the status of consultations under section 106.

Currently Identified Environmental Issues

We have already identified several issues that we think deserve attention based on a preliminary review of the planned facilities and the environmental information provided by Algonquin. This preliminary list of issues may change based on your comments and our analysis.

- *Geology*—Effects as a result of blasting to remove existing surface and bedrock during construction.
- *Biological Resources*—Effects on threatened and endangered species and sensitive habitats.
- *Water Resources*—Effects on waterbodies and wetlands, including the crossing of the Connecticut River.
- *Land Use*—Effects on residential and commercial areas, traffic and transportation corridors, and agricultural lands from construction.
- *Cultural Resources*—Effects on archaeological sites and historic resources.
- *Air Quality and Noise*—Effects on the local air quality and noise environment from construction and operation.
- *Reliability and Safety*—The assessment of hazards associated with natural gas pipelines and aboveground facilities.

Environmental Mailing List

The environmental mailing list includes: federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for Project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the Project. We will

update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the planned Project.

When we publish and distribute the EA, copies will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version or would like to remove your name from the mailing list, please return the attached Information Request (Appendix 3).

Becoming an Intervenor

In addition to involvement in the EA scoping process, once Algonquin files its application with the Commission, you may want to become an "intervenor," which is an official party to the Commission's proceeding. Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are in the User's Guide under the "e-filing" link on the Commission's Web site. Please note that the Commission will not accept requests for intervenor status at this time. You must wait until the Commission receives a formal application for the Project, which is currently anticipated to be sometime in September 2015.

Additional Information

Additional information about the Project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site (www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number, excluding the last three digits in the Docket Number field (*i.e.*, PF15-12). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings

by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/esubscribenow.htm.

Finally, public meetings or site visits will be posted on the Commission's calendar located at www.ferc.gov/EventCalendar/EventsList.aspx along with other related information.

Dated: April 27, 2015.

Kimberly D. Bose,
Secretary.

[Docket No. AD15-7-000]

Reliability Technical Conference; Supplemental Notice With Agenda

As announced in the Notice of Technical Conference issued on April 9, 2014, the Commission will hold a technical conference on Thursday, June 4, 2015 from 10:00 a.m. to 4:00 p.m. to discuss policy issues related to the reliability of the Bulk-Power System. The agenda for this conference is attached. Commission members will participate in this conference.

Registration is not required, but is encouraged. Attendees may register at: <https://www.ferc.gov/whats-new/registration/06-04-15-form.asp>.

After the close of the conference, the Commission will accept written comments regarding the matters discussed at the technical conference. Any person or entity wishing to submit written comments regarding the matters discussed at the conference should submit such comments in Docket No. AD15-7-000 on or before July 9, 2014.

Information on this event will be posted on the Calendar of Events on the Commission's Web site, www.ferc.gov, prior to the event. The conference will be transcribed. Transcripts will be available for a fee from Ace Reporting Company (202-347-3700). A free webcast of this event is also available through www.ferc.gov. Anyone with Internet access who desires to listen to this event can do so by navigating to www.ferc.gov's Calendar of Events and locating this event in the Calendar. The event will contain a link to the webcast. The Capitol Connection provides technical support for webcasts and offers the option of listening to the meeting via phone-bridge for a fee. If you have any questions, visit

www.CapitolConnection.org or call 703-993-3100.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an email to accessibility@ferc.gov or call toll free 1-866-208-3372 (voice) or 202-502-8659 (TTY), or send a FAX to 202-208-2106 with the required accommodations.

For more information about this conference, please contact: Sarah McKinley, Office of External Affairs, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, (202) 502-8368, sarah.mckinley@ferc.gov.

Dated: April 28, 2015.

Kimberly D. Bose,
Secretary.

[Project No. 2614-038]

City of Hamilton, Ohio, American Municipal Power, Inc.; Notice of Application for Partial Transfer of License and Soliciting Comments, Motions To Intervene, and Protests

On April 22, 2015, the City of Hamilton, Ohio (City or transferor) and American Municipal Power, Inc. (AMP or transferee) filed an application to partially transfer the license for the Greenup Project No. 2614, located on the Ohio River in Scioto County, Ohio. The application requests to partially transfer the license for the Greenup Project to add AMP as a co-licensee.

The transferor and transferee seek Commission approval to a partial transfer of the license for the Greenup Project from the City, as sole licensee, to the City and AMP, as co-licensees.

Applicant Contacts: For Transferor: Mr. Joshua Smith, City Manager, City of Hamilton, 345 High Street, 7th Floor, Hamilton, OH 45011-6071, Email: smithja@cihamilton.oh.us; Mr. Alan I. Robbins, Esq., Jennings Strouss & Salmon, PLC, 1350 I Street NW., Suite 810, Washington, DC 20005, Email: arobbins@jsslaw.com. For Transferee: Mr. Marc S. Gerken, P.E., President and CEO, American Municipal Power, Inc., 1111 Schrock Road, Suite 100, Columbus, OH 43229, Email: mgerken@amppartners.org; Mr. Phil E. Meier, Vice President, Hydro Development and Operations, American Municipal Power,

Inc., 1111 Schrock Road, Suite 100, Columbus, OH 43229, Email: pmeier@amppartners.org; and Mr. John W. Bentine, Esq., Sr. Vice President and General Counsel, Email: jbentine@amppartners.org, American Municipal Power, Inc., 1111 Schrock Road, Suite 100, Columbus, OH 43229
FERC Contact: Patricia W. Gillis, (202) 502-8735.

Deadline for filing comments, motions to intervene, and protests: 30 days from the date that the Commission issues this notice. The Commission strongly encourages electronic filing. Please file motions to intervene, comments, and protests using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include docket number P-2614-038.

Dated: April 28, 2015.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9927-57-OA]

Notification of a Public Teleconference of the Chartered Science Advisory Board

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) Science Advisory Board (SAB) Staff Office announces a public teleconference to review three draft SAB reports on the EPA's Integrated Risk Information System (IRIS) assessments for ammonia, trimethylbenzenes and ethylene oxide, respectively.

DATES: The public teleconference for the Chartered SAB will be conducted on Monday June 8, 2015 from 1:00 p.m. to 5:00 p.m. (Eastern Time).

ADDRESSES: The public teleconference will be conducted by telephone only.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing to obtain information concerning the public teleconference may contact Mr. Thomas Carpenter, Designated Federal Officer (DFO), EPA Science Advisory Board Staff Office (1400R), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460; by telephone/voice mail at (202) 564-4885 or at carpenter.thomas@epa.gov. General information about the SAB as well as any updates concerning the teleconference announced in this notice may be found on the EPA Web site at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION: The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a federal advisory committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. Pursuant to FACA and EPA policy, notice is hereby given that the chartered SAB will hold a public teleconference to review three draft SAB reports on toxicological assessments for the IRIS program. The assessments address ammonia, trimethylbenzenes, and ethylene oxide respectively. The chartered SAB will conduct a quality review of three draft reports that focus on the scientific and technical merit of the assessments. The SAB undertook this review at the request of the EPA's Office of Research and Development. Quality review is a key function of the chartered SAB. Draft reports prepared by SAB committees, panels, or work groups must be reviewed and approved by the chartered SAB before transmittal to the EPA Administrator. Consistent with FACA, the chartered SAB makes a determination in a public meeting about each draft report and determines whether the report is ready to be transmitted to the EPA Administrator.

For EPA's *Toxicological Review of Ammonia*, ORD evaluated epidemiological data, experimental animal data, and other relevant data from studies of the noncancer and cancer effects of ammonia. This assessment includes an inhalation reference concentration (RfC) and a qualitative cancer descriptor. The assessment does not include an oral reference dose (RfD) or a quantitative cancer assessment. Information about this advisory activity can be found on the Web at <http://yosemite.epa.gov/sab/>
