Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota Transfer

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; inseason quota transfer.

SUMMARY: NMFS announces that the State of North Carolina is transferring commercial summer flounder quota to the Commonwealth of Virginia from its 2008 quota. By this action, NMFS adjusts the quotas and announces the

revised commercial quota for each state involved.

DATES: Effective December 30, 2008 through December 31, 2008.

FOR FURTHER INFORMATION CONTACT:

Emily Bryant, Fishery Management Specialist, (978) 281–9244, FAX (978) 281–9135.

SUPPLEMENTARY INFORMATION:

Regulations governing the summer flounder fishery are found at 50 CFR part 648. The regulations require annual specification of a commercial quota that is apportioned among the coastal states from North Carolina through Maine. The process to set the annual commercial quota and the percent allocated to each state are described in § 648.100.

The final rule implementing Amendment 5 to the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan, which was published on December 17, 1993 (58 FR 65936), provided a mechanism for summer flounder quota to be transferred from one state to another. Two or more states, under mutual agreement and with the concurrence of the Administrator, Northeast Region, NMFS (Regional Administrator), can transfer or combine summer flounder commercial quota under § 648.100(d). The Regional Administrator is required to consider the criteria set forth in § 648.100(d)(3) in the evaluation of requests for quota transfers or combinations.

North Carolina has agreed to transfer 4,777 lb (2,167 kg) of its 2008 commercial quota to Virginia to cover the summer flounder landings of two North Carolina vessels granted safe harbor in Virginia due to mechanical issues that occurred on the vessels between December 15 and December 16, 2008. The Regional Administrator has determined that the criteria set forth in § 648.100(d)(3) have been met. The revised quotas for calendar year 2008 are: North Carolina, 2,525,702 lb (1,145,639 kg); and Virginia, 2,019,988 lb (916,251 kg).

Fisheries of the Exclusive Economic Zone Off Alaska; Inseason Adjustment to the 2009 Gulf of Alaska Pollock and Pacific cod Total Allowable Catch Amounts

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; inseason adjustment; request for comments.

SUMMARY: NMFS is adjusting the 2009 total allowable catch (TAC) amounts for the Gulf of Alaska (GOA) pollock and Pacific cod fisheries. This action is necessary because NMFS has determined these TACs are incorrectly specified. This action will ensure the GOA pollock and Pacific cod TACs do not exceed the appropriate amounts based on the best available scientific information for pollock and Pacific cod in the GOA. This action is consistent with the goals and objectives of the Fishery Management Plan for Groundfish of the Gulf of Alaska Management Area (FMP).

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), January 5, 2009, until the effective date of the final 2009 and 2010 harvest specifications for GOA groundfish, unless otherwise modified or superseded through publication of a notification in the **Federal Register**.
