[Document No. AMS–TM–21–0026]

Pandemic Response and Safety Program; Request for Emergency Approval of a New Information Collection

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice of emergency request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the U.S. Department of Agriculture (USDA), Agricultural Marketing Service's (AMS) intention to seek approval from the Office of Management and Budget (OMB) for a new information collection to administer the Pandemic Response and Safety Program (PRS) under its Grants Division. AMS Grants Division is implementing this new grant program under section 751 of the Consolidated Appropriations Act, 2021 (CAA), which directs the Secretary of Agriculture to provide "grants and loans to small or mid-sized food processors or distributors, seafood processing facilities and processing vessels, farmers markets, producers, or other organizations to respond to coronavirus, including for measures to protect workers against the Coronavirus Disease 2019 (COVID-19)."

DATES: Submit comments on or before November 1, 2021.

ADDRESSES: Interested persons are invited to submit comments concerning this notice by using the electronic process available at www.regulations.gov. Written comments may also be submitted to Grants Division; Transportation and Marketing Program; AMS; USDA; 1400 Independence Avenue SW, Room 2055–South Building, Stop 0201; Washington, DC 20250–0264. All comments should

reference the docket number AMS–TM–21–0026, the date of submission, and the page number of this issue of the **Federal Register**. All comments received will be posted without change, including any personal information provided, at www.regulations.gov and will be included in the record and made available to the public.

FOR FURTHER INFORMATION CONTACT: John Miklozek, Director, Grants Division; (202) 720–1403 or email John.Miklozek@usda.gov.

SUPPLEMENTARY INFORMATION:

Overview of This Information Collection

Agency: USDA, AMS.

Title: Pandemic Response and Safety Program.

OMB Number: 0581–NEW.

Type of Request: Emergency Approval of a New Information Collection.

Abstract: The Agricultural Marketing Act of 1946 (AMA) (7 U.S.C. 1621 *et seq.*) directs and authorizes USDA to administer Federal grant programs. AMS Grant Programs are administered through the Office of Management and Budget (OMB) Guidance for Grants and Agreements based on its regulations under the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR part 200) (85 FR 49506; December 13, 2020). Information collection requirements in this emergency request are needed for AMS to administer a new competitive grant program, in accordance with 2 CFR part 200, entitled the Pandemic Response and Safety (PRS) under OMB No. 0581–NEW.

PRS is authorized pursuant to the authority of section 751 of the Consolidated Appropriations Act, 2021 (CAA) (Pub. L. 116–260) in response to the ongoing COVID–19 pandemic and worker protections in food processing, distribution, farmers markets, and agricultural production. The AMS Grants Division requests to collect information for this new grant program from individuals, small businesses, and nonprofit organizations working in food processing, distribution, farmers markets, and agricultural production.

Because this is a voluntary program, respondents request or apply for this specific competitive grant, and in doing so, they provide information. Information collected is used only by

authorized representatives of USDA, AMS, Transportation and Marketing Program's Grants Division to certify that grant participants are complying with applicable program regulations, and the data collected is the minimum information necessary to effectively carry out program requirements.

Information collection requirements in this request are essential to carry out the intent of section 751 of the CAA, to provide respondents the type of service they request, and to administer the program.

Upon OMB approval of the PRS information collection package, AMS will request OMB approval to merge this information collection into the currently approved information collection OMB control number 0581–0240 approved on January 13, 2021.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 4 hours per response.

Respondents: Grant applicants; or grant recipients.

Estimated Number of Respondents: 800,000.

Estimated Total Annual Responses including Recordkeeping: 1,000,000.

Estimated Number of Responses per Respondent: 4.

Estimated Total Annual Burden on Respondents and Recordkeepers: 916,660 hours.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of agency functions, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the new collection of information, including the validity of methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of information collection on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Obtaining OMB's approval of this new information collection enables AMS Grants Division to publish a Request for Applications (RFA) to establish application requirements, the review and approval process, and grant administration procedures, which will

enable eligible entities to develop appropriate grant applications for the program so that AMS can adequately evaluate these new proposals and obligate funds as required by the CAA.

Erin Morris,

Associate Administrator, Agricultural Marketing Service.

Agricultural Research Service

Notice for Comment on Two Strategic Plans for the Subcommittee on Aquaculture Science Planning and Regulatory Efficiency Task Forces and on Updating the National Aquaculture Development Plan

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In October 2018, the SCA established a Science Planning Task Force charged with documenting Federal science and technology opportunities and priorities for aquaculture by revising and updating the National Strategic Plan for Federal Aquaculture Research (2014–2019). Similarly, in February 2019, the SCA established a Regulatory Efficiency Task Force charged with developing a new plan for interagency science and technology coordination to improve regulatory efficiency, research and technology development, and economic growth. The Task Forces are seeking public comment on Science and Regulatory Efficiency strategic plans to determine if their respective topics are adequately covered. See **SUPPLEMENTARY INFORMATION** for more details.

DATES: In the *Federal Register* of August 5, 2021, FR Doc. 2021–16711. Doc. 2021–04701, on Pages 42776–42777, under dates should read as follows: Comments must be received by September 18th, 2021 to be assured of consideration.

SUPPLEMENTARY INFORMATION: The Subcommittee on Aquaculture (SCA) is a statutory subcommittee that operates under the Committee on Environment of the National Science and Technology Council (NSTC) under the Office of Science and Technology Policy in the Executive Office of the President [National Aquaculture Act of 1980 (Pub. L. 96–362, 94 Stat. 1198, 16 U.S.C. 2801, *et seq.*) and the National Aquaculture Improvement Act of 1985 (Pub. L. 99–198, 99 Stat. 1641)].

In addition, in May of 2020, the SCA established an Economic Development Task Force charged with developing a strategic plan for economic development through aquaculture. Separately from SCA, the National Aquaculture Act of 1980 requires select federal agencies to develop a National Aquaculture Development Plan (NADP). Last completed in 1983, the NADP describes aquaculture associated technologies, problems, and opportunities in the United States and its territories. It recommends actions to solve problems and analyzes the social, environmental, and economic impacts of growth in aquaculture. The SCA plans to update the NADP using the Science and Regulatory Efficiency plans described here, with the addition of the Economic Development plan currently in process.

Signed at Washington, DC, August 26, 2021.

Yvette Anderson,

Federal Register Liaison Officer, ARS, ERS, NASS.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding: whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by October 1, 2021 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this

particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Foreign Agricultural Service

Title: Sugar Imported for Exports as Refined Sugar, as a Sugar-Containing Product, or Used in Production of Certain Polyhydric Alcohols.

OMB Control Number: 0551–0015.

Summary of Collection: The regulation at 7 CFR part 1530 authorizes the Foreign Agricultural Service (FAS) to issue import licenses to enter raw cane sugar exempt from the tariff-rate quota (TRQ) for the raw cane sugar imports and related requirements on the condition that an equivalent quantity of refined sugar be: (1) Exported as refined sugar; (2) exported as an ingredient in sugar containing products; or (3) used in production of certain polyhydric alcohols. The information requirements set forth in the regulation are necessary to enable FAS to administer the licensing program in full compliance with the regulation and to ensure that licensed imports do not enter the commercial sugar market in circumvention of the TRQ for raw cane sugar.

Need and Use of the Information: FAS will collect information to verify that the world-priced sugar is actually exported and not diverted onto the domestic market, thereby undermining the objectives of politically sensitive U.S. sugar policies. This collection enables USDA to monitor participants in an effort to ensure compliance with program parameters. Without the collection, there would be increased opportunity to divert sugar onto the domestic market.

Description of Respondents: Business or other for-profit.

Number of Respondents: 333.

Frequency of Responses: Recordkeeping; Reporting; Quarterly.

Total Burden Hours: 428.

Ruth Brown,

Departmental Information Collection Clearance Officer.
