

governance. Department Manual at 600 DM 6.

Agency Preferred Alternative

In accordance with the Department's NEPA regulations (43 CFR 46.425), the BLM identifies Alternative 5 as the Preferred Alternative. This alignment minimizes crossing of the SRBOP to a total of 17.6 miles, 8.8 miles per segment in parallel, separated by 250 feet. The alternative avoids all GRSG Priority Habitat Management Areas, the Hagerman Fossil Beds National Monument, the historic Toana Freight Road, and Balanced Rock natural landmark in Twin Falls County. The distance separating the segments (250 feet) meets WECC planning criteria, while minimizing the project footprint by reducing the need to construct new access roads to build and service the lines. The alignments in this alternative also avoid primary agricultural lands in Owyhee County and in general, impacts the least amount of private lands of any alternative analyzed in detail in the Supplemental EIS. Residential areas of Kuna and Melba are also avoided.

Alternative 5 would require five plan amendments to three current BLM land use plans so that the project would conform to the respective plans. The following land use plans would be amended in a decision selecting Alternative 5:

Twin Falls MFP

Snake River Birds of Prey RMP

Bruneau MFP

In order to authorize the Segment 8 alignment in this alternative, two land use plans would need to be amended. The SRBOP RMP would require an amendment to allow an additional ROW and designate an additional corridor for two 500-kV lines, as well as an amendment to allow the project within 0.5 mile of sensitive plant habitat. The Bruneau MFP would need to be amended to change the classification for a VRM Class II parcel near Castle Creek to VRM Class III. These same amendments to the SRBOP RMP and Bruneau MFP would be needed for Segment 9 in this alternative, as the routes would parallel each other in these planning areas. Authorizing the Segment 9 alignment in this alternative would also require two additional amendments. The Twin Falls MFP would need amendments to allow the ROW outside of existing corridors, and to reclassify VRM Class I and II areas adjacent to the Roseworth corridor to VRM class III, while allowing a 500-kV line to cross the Salmon Falls Creek Area of Critical Environmental Concern.

Environmentally Preferable Alternative

For Gateway West, the environmentally preferable alternative is the No Action Alternative. Under the No Action Alternative, Gateway West Segments 8 and 9 would not be constructed, no RMPs or MFPs would need to be amended, and the objectives of the project as described in Section 1.4 of the Supplemental EIS would not be met.

Protesting Proposed Land Use Plan Amendments

Pursuant to 43 CFR 1610.5-2, a person may protest the Proposed RMP/MFP amendments. Instructions for filing a protest with the Director of the BLM regarding the Proposed RMP/MFP Amendments may be found online at http://www.blm.gov/wo/st/en/prog/planning/planning_overview/protest_resolution/filinginstructions.html and in the "Dear Reader" Letter of the Gateway West Final Supplemental EIS and Proposed RMP/MFP Amendments. All protests must be in writing and mailed to the appropriate address, as set forth in the **ADDRESSES** section above. Emailed protests will not be accepted as valid protests unless the protesting party also provides the original letter by either regular mail or overnight delivery postmarked by the close of the protest period. Under these conditions, the BLM will consider the email as an advance copy, and it will receive full consideration. If you wish to provide the BLM with such advance notification, please direct emails to protest@blm.gov.

Copies of the Final Supplemental EIS and Proposed RMP/MFP Amendments have been sent to cooperating agencies; other affected Federal, State, and local government agencies; the Shoshone-Paiute Tribes of Duck Valley; the Shoshone-Bannock Tribes of Fort Hall; and other stakeholders.

Copies of the Final Supplemental EIS and Proposed RMP/MFP Amendments and other documents pertinent to this project may also be examined at:
