

Background Requirement: Section § 6.2 of FMVSS No. 205 specifically states:

§ 6.2 A prime glazing manufacturer certifies its glazing by adding to the marks required by section 7 of ANSI/SAE Z26.1–1996, in letters and numerals of the same size, the symbol “DOT” and a manufacturer’s code mark that NHTSA assigns to the manufacturer. . . .

NHTSA Decision: FMVSS No. 205 specifies labeling and performance requirements for automotive glazing. Section § 6 of FMVSS No. 205 requires glazing material manufacturers to certify, in accordance with 49 U.S.C. 30115, each piece of glazing material to which this standard applies. A prime glazing material manufacturer certifies its glazing by adding the marks required in Section 7 of ANSI Z26.1 (1996), the symbol “DOT” and a manufacturer’s code mark assigned by the NHTSA’s Office of Vehicle Safety Compliance. One of the labeling requirements in Section 7 of ANSI Z26.1 (1996) is to mark automotive glazing with the item of glazing number, e.g., “AS–1”. In addition, Section 7 of ANSI Z26.1 (1996) states that the item of glazing number is to be placed in close proximity to other required markings.

According to the petition, the nature of the noncompliance is the improper placement of the glazing number on the windshield. NHTSA believes that the placement of the glazing number, separated from the other required labeling, is inconsequential to vehicle safety. The glazing number has been placed at a different location from the rest of the required markings, but all information required in FMVSS No. 205 appears on the windshield. The windshields meet all performance requirements and Ford has taken the steps to correct the problem.

In consideration of the foregoing, NHTSA has determined that Ford has met its burden of persuasion and that the subject FMVSS No. 205 glazing noncompliance is inconsequential to motor vehicle safety. Accordingly, Ford’s petition is hereby granted, and Ford is exempted from the obligation of providing notification of, and a remedy for, the subject noncompliance under 49 U.S.C. 30118 and 30120.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and 30120(h)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance.
