

conclude at 2 p.m. on Thursday, March 6, 2014.

ADDRESSES: The meetings will be held in the Pacific Conference Room of the NOAA Southwest Fisheries Science Center, 8901 La Jolla Shores Dr., La Jolla, CA 92037–1508.

FOR FURTHER INFORMATION CONTACT: Kerry Griffin, Staff Officer; telephone: (503) 820–2280.

SUPPLEMENTARY INFORMATION: The primary purpose of the meeting is to review a full stock assessment for Pacific sardine. The last full stock assessment was in 2011, with updates completed in 2012 and 2013. The review panel will consist of two members of the Pacific Council's Scientific and Statistical Committee's Subcommittee on Coastal Pelagic Species (CPS), plus two independent experts. The Pacific Council will use the 2014 assessment to establish Pacific sardine fishery management measures and harvest specifications for the 2014–15 fishing year, beginning July 1, 2014 and ending June 30, 2015. Representatives of the Pacific Council's CPS Management Team and the CPS Advisory Subpanel will also attend the meeting.

The purpose of the data availability meeting is to identify likely sources of fisheries data and surveys that can potentially be used in future assessments for Pacific sardine, Pacific mackerel, northern anchovy, and jack mackerel.

Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the panel's intent to take final action to address the emergency.

Special Accommodations

This listening station is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Dale Sweetnam, (858) 546–7170, at least 5 days prior to the meeting date.

Dated: February 5, 2014.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Pacific Fishery Management Council; Public Meeting (Webinar)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The Pacific Fishery Management Council (Pacific Council) will convene a joint webinar meeting of its Coastal Pelagic Species Management Team and Coastal Pelagic Species Advisory Subpanel.

DATES: The Webinar meeting will be held Tuesday February 25, 2014, 11 a.m. until 12:30 p.m., Pacific Time.

ADDRESSES: The meeting will be held via webinar, and the public is invited to attend remotely, in listen-only mode. Detailed instructions on how to access the webinar will be posted to the Council's Web site in advance of the meeting.

FOR FURTHER INFORMATION CONTACT: Kerry Griffin, Staff Officer; telephone: (503) 820–2280.

SUPPLEMENTARY INFORMATION: The primary purpose of the meeting is to discuss Pacific sardine temperature parameters, including the CPSMT's report and a revised analyses report, both of which will be included in the March Council meeting briefing book materials.

Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the panel's intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt, at (503) 820–2280, at least 5 days prior to the meeting date.

Dated: February 5, 2014.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648–XA602

Marine Mammals; File No. 16109

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for permit amendment.

SUMMARY: Notice is hereby given that Versar (formerly GeoMarine, Inc.) (Responsible Party: Susanne Bates), Gustavus, Texas 99826, has applied for an amendment to Scientific Research Permit No. 16109–01.

DATES: Written, telefaxed, or email comments must be received on or before March 13, 2014.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the *Features* box on the Applications and Permits for Protected Species home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 16109 from the list of available applications.

These documents are also available upon written request or by appointment in the following offices:

Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427–8401; fax (301) 713–0376;

Northeast Region, NMFS, 55 Great Republic Drive, Gloucester, MA 01930; phone (978) 281–9328; fax (978) 281–9394; and

Southeast Region, NMFS, 263 13th Avenue South, Saint Petersburg, FL 33701; phone (727) 824–5312; fax (727) 824–5309.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713–0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT:

Kristy Beard, (301) 427–8401.

SUPPLEMENTARY INFORMATION: The subject amendment to Permit No.

16109–01 is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226).

Permit No. 16109, issued on May 3, 2012 (77 FR 27719) and amended on July 9, 2012 (77 FR 50086), authorizes takes of 35 species of cetaceans, four species of pinnipeds, and five species of sea turtles from New Jersey to North Carolina for scientific research. The research involves harassment by vessel approach during shipboard transect surveys. Eleven of the 44 species targeted for research are listed as threatened or endangered: blue whale (*Balaenoptera musculus*), fin whale (*B. physalus*), humpback whale (*Megaptera novaeangliae*), North Atlantic right whale (*Eubalaena glacialis*), sei whale (*B. borealis*), sperm whale (*Physeter macrocephalus*), green sea turtle (*Chelonia mydas*), hawksbill sea turtle (*Eretmochelys imbricata*), loggerhead sea turtle (*Caretta caretta*), Kemp's ridley sea turtle (*Lepidochelys kempii*), and leatherback sea turtle (*Dermochelys coriacea*). The permit expires May 15, 2017.

The permit holder is requesting the permit be amended to include changes to the terms and conditions of the permit related to numbers of animals taken and manner of taking to include: extending the action area north and south to include all U.S. waters from Maine to Florida; adding aerial surveys to their research methods; adding takes for Blainsville beaked whale (*Mesoplodon densirostris*), false killer whales (*Pseudorca crassidens*), hawksbill, loggerhead, Kemp's ridley, and green sea turtles; increasing the number of marine mammals and sea turtles that could be harassed; and changing the frequency of vessel based surveys from once per season to twice a month, year-round to generate abundance/density estimates for sea turtles and marine mammals.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activities proposed are consistent with the Proposed Action Alternative in the Environmental Assessment (EA) on the Effects of Issuing Two Scientific Research Permits, No. 16109 and No. 15575, for Protected Sea Turtles and Marine Mammals (NMFS 2012). Based

on that analysis, NMFS determined that issuance of the permit would not significantly impact the quality of the human environment and that preparation of an environmental impact statement was not required. That determination is documented in a Finding of No Significant Impact (FONSI), signed on May 1, 2012. The EA and FONSI are available upon request.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: February 6, 2014.

Donna S. Wieting,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

RIN 0648–XD022

Takes of Marine Mammals Incidental to Specified Activities; Construction Activities of the Children's Pool Lifeguard Station at La Jolla, CA

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; proposed Incidental Harassment Authorization; request for comments.

SUMMARY: NMFS has received an application from the City of San Diego for an Incidental Harassment Authorization (IHA) to take small numbers of marine mammals, by Level B harassment, incidental to construction activities of the Children's Pool Lifeguard Station in La Jolla, CA. NMFS has reviewed the application, including all supporting documents, and determined that it is adequate and complete. Pursuant to the Marine Mammal Protection Act (MMPA), NMFS is requesting comments on its proposal to issue an IHA to the City of San Diego to take, by Level B harassment only, three species of marine mammals during the specified activities.

DATES: Comments and information must be received no later than March 13, 2014.

ADDRESSES: Comments on the application should be addressed to P. Michael Payne, Chief, Permits and Conservation Division, Office of

Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910. The mailbox address for providing email comments is ITP.Goldstein@noaa.gov. Please include 0648–XD022 in the subject line. NMFS is not responsible for email comments sent to addresses other than the one provided here. Comments sent via email, including all attachments, must not exceed a 10-megabyte file size.

All comments received are a part of the public record and will generally be posted to <http://www.nmfs.noaa.gov/pr/permits/incidental.htm> without change. All Personal Identifying Information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

A copy of the IHA application containing a list of the references used in this document may be obtained by writing to the address specified above, telephoning the contact listed below (see **FOR FURTHER INFORMATION CONTACT**), or visiting the Internet at: <http://www.nmfs.noaa.gov/pr/permits/incidental.htm>. Documents cited in this notice, including the IHA application, may be viewed, by appointment, during regular business hours, at the aforementioned address.

FOR FURTHER INFORMATION CONTACT: Howard Goldstein or Jolie Harrison, Office of Protected Resources, NMFS, 301–427–8401.

SUPPLEMENTARY INFORMATION:

Background

Section 101(a)(5)(D) of the MMPA, as amended (16 U.S.C. 1371 (a)(5)(D)), directs the Secretary of Commerce (Secretary) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals of a species or population stock, by United States citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

Authorization for the incidental taking of small numbers of marine mammals shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant). The authorization must set forth the permissible methods of taking, other means of effecting the
