

SUPPLEMENTARY INFORMATION:**I. Abstract**

The "Survey of International Air Travelers" program, administered by the Office of Travel and Tourism Industries (OTTI) of the International Trade Administration provides the sole source data required to: (1) Estimate international travel and passenger fare exports, imports and the trade balance for the United States; (2) support the U.S. Department of Commerce (DOC), Bureau of Economic Analysis' (BEA) mandate to collect, analyze and report information used to calculate the Gross Domestic Product (GDP) and (3) Travel and Tourism Satellite Account for the United States.

The Survey program contains the core data that is analyzed and communicated by OTTI with other government agencies, associations and businesses that share the same objective of increasing U.S. international travel exports. The Survey assists OTTI in assessing the economic impact of international travel on state and local economies, providing visitation estimates, and identifying traveler and trip characteristics. The DOC assists travel industry enterprises to increase international travel and passenger fare exports for the country as well as outbound travel on U.S. carriers. The Survey program provides the only available estimates of nonresident visitation to the states and cities within the U.S., as well as U.S. resident travel abroad. U.S. and foreign flag airlines that voluntarily participate in the Survey program enable the collection.

II. Method of Collection

The survey will be collected by: (1) the flight attendant during the flight, or (2) the sub-contractor "interviewer" in the pre-flight departure gate area. International passengers will be prompted to complete/submit the survey after making flight arrangements via a booking engine (i.e., Worldspan) or an airline Internet site.
