SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Respondents are UOCAVA citizens who desire to apply for voter registration or request an absentee ballot from their State of residency. The information provided by these citizens is used by the States to determine if the citizen is a resident of a jurisdiction within that State, and therefore eligible to vote within that jurisdiction and to provide absentee ballots to these citizens for Federal elections held within each calendar year. This form is mandated by 42 U.S.C. 1973ff. The Department of Defense does not receive, collect nor maintain any data provided

on the form by these citizens; this data is received, collected and maintained by the individual States. The burden for the collection of this data resides with the individual States. If the form is not provided, UOCAVA citizens may not be able to register to vote in their State of residency nor be able to request absentee ballots and thus, may be disenfranchised from their right as a U.S. citizen to participate in the electoral process.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) requires that Federal agencies provide interested parties an early opportunity to comment on information collection requests. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: FAFSA Completion Project Evaluation.

OMB Control Number: Pending.

Type of Review: New.

Total Estimated Number of Annual Responses: 200.

Total Estimated Number of Annual Burden Hours: 1,120.

Abstract: This information is intended to help schools implement targeted outreach to seniors and their families who have not yet submitted a FAFSA, or who submitted a FAFSA that may be incomplete. The evaluation of the project is being conducted by IES staff in the National Center for Education Evaluation. The study will use a delayed-treatment control group design, and will examine whether there is an impact from access to the data on students' application for and receipt of federal student aid and a proxy for college enrollment. The data collection to address these research questions will create minimal burden on respondents and have limited cost to the government. IES is requesting permission to obtain lists of high schools and student rosters from the participating districts or their high schools. Other data for the study—completion of a FAFSA, receipt of Pell Grant, and a proxy for college enrollment (whether an institution of

higher education has drawn down the Pell Grant funds for individual students)—will come from existing ED administrative data that will not generate any new burden because they are already collected for other purposes. The analyses will be conducted internally by IES staff on data that is stripped of personally identifiable information. The results will be summarized in an internal memo.

Dated: June 29, 2012.

Acting Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management.
