

health officials in their ability to identify public health hazards and mitigate their impact through communication and information sharing among public health partners; and to producing establishments in connection with the Agency's investigation of complaint-related information.

CCMS II data and investigations also support other activities, including complaint-related verification of Hazard Analysis and Critical Control Points in producing establishments, analysis of school lunch product manufacturing specifications, and recall coordination for product(s) identified as adulterated or unwholesome.

Safeguards/Security Provided for This System

FSIS has taken significant actions to safeguard the identifiable information about an individual in CCMS II and to control access to the system itself. Access to CCMS II is restricted to trained, authorized FSIS employees and to a limited number of users representing FSIS' public health partners in the Department of Health and Human Services. Authorized users are assigned level-of-access roles based on their job functions. The level of access for the user restricts the data that may be seen and the degree to which data may be modified by the user. Firewalls and other security controls further prevent unauthorized access. As a result, the potential effect of CCMS II on an individual's privacy is minimal.

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, records maintained in the system may be disclosed outside USDA for eight routine uses. These routine uses may be described as functional and housekeeping uses.

The records are protected by the confidentiality requirements of USDA's Office of the Chief Information Officer Cyber Security Manuals and the provisions of the Privacy Act. Only authorized USDA employees and contractors will have access to the records in this system, and this access will be on a need-to-know basis. Role-based access controls are used to restrict access to CCMS II, which is accessible via the FSIS Intranet.

The system has been categorized as a Moderate impact system as identified in Federal Information Processing Standard (FIPS) 199. The security controls implemented within the system will correspond with those published in the National Institute of Standards and Technology Special Publication 800-53, Recommended Security Controls for Federal Information Technology Systems (Revision 1) for a Moderate impact system. Users are granted system access only upon successful completion of security training and must successfully complete security training each year to retain access. Each user is supplied with a unique and strong user-id and password. The user roles are restrictive and based on the principle of least privilege allowing for adequate performance of job functions and access to information based on a need to know.

Where appropriate, the system also will adhere to the security controls identified in

the Federal Information Security Control Audit Manual (FISCAM). The mandatory requirements of FIPS 199 and FIPS 200 support the Federal Information Security Management Act and FISCAM supports the mandated Office of Management and Budget Circular A-123, Management of Internal Controls.

Moreover, system managers and users observe and adhere to specific USDA security requirements as set forth in the USDA Cyber Security Manuals, including but not limited to USDA Departmental Manual (DM) 3545-000, Personnel Security, and DM 3510-001, Physical Security Standards for Information Technology Restricted Space.

DEPARTMENT OF AGRICULTURE

Office of the Chief Economist; Public Comment Period for Climate Change, Global Food Security, and the U.S. Food System Assessment Report

AGENCY: Office of the Chief Economist, U.S. Department of Agriculture.

ACTION: Request for Public Comment on Climate Change, Global Food Security, and the U.S. Food System Assessment Report.

SUMMARY: The U.S. Department of Agriculture (USDA) has led the development of an interagency assessment report entitled "Climate Change, Global Food Security, and the U.S. Food System." The report has been developed to support the National Climate Assessment of the U.S. Global Change Research Program, and is called for under the President's Climate Action Plan. USDA is requesting input from the public. This request is being published in the **Federal Register** for a 30-day public comment period. Public comments will be considered during the preparation of the final report. The final report will be published on USDA's Web site when it becomes available. Comments from the public will be accepted electronically via <http://www.globalchange.gov/notices>. Comments may be submitted only online and via this address; instructions for doing this are on the Web site.

DATES: Comments must be received by 11:59 p.m. Eastern Time on October 8, 2015 will be considered.

ADDRESSES: Comments from the public will be accepted electronically via <http://www.globalchange.gov/notices>. Comments may be submitted only online and via this address; instructions for doing this are on the Web site.

FOR FURTHER INFORMATION CONTACT: William Hohenstein, Director, USDA Climate Change Program Office,

telephone: 202-720-9978, Email: whothenst@oce.usda.gov.

SUPPLEMENTARY INFORMATION: The public comment draft can be found online at www.globalchange.gov/notices. Only comments received through the online comment system (www.globalchange.gov/notices) will be considered.

All comments received will be considered by the report's authors and will become part of the public record once the final report is issued. However, until the report is finalized and released to the public, commenters' identities will not be shared with the authors. When the report is released in final form to the public, the comments, in association with the commenter's name, will be made available upon request. No additional information a commenter submits as part of the registration process (such as an email address) will be disclosed publicly.

The Department of Agriculture will publish a notice informing the public of the final report when it is issued.

Robert Johansson,
Chief Economist.

Forest Service

Rogue and Umpqua Resource Advisory Committee

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Rogue and Umpqua Resource Advisory Committee (RAC) will meet in Roseburg, Oregon. The committee is authorized under the Secure Rural Schools and Community Self-Determination Act (the Act) and operates in compliance with the Federal Advisory Committee Act. The purpose of the committee is to improve collaborative relationships and to provide advice and recommendations to the Forest Service concerning projects and funding consistent with Title II of the Act. Additional RAC information, including the meeting agenda and the meeting summary/minutes can be found at the following Web site: <http://tinyurl.com/qjkrxps>.

DATES: The meeting will be held October 14-15, 2015, at 9:30 a.m.-4 p.m.

All RAC meetings are subject to cancellation. For status of meeting prior to attendance, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
