

For additional direction on obtaining information and submitting comments, see “Obtaining Information and Submitting Comments” in the **SUPPLEMENTARY INFORMATION** section of this document.

**FOR FURTHER INFORMATION CONTACT:** David C. Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: [Infocollects.Resource@nrc.gov](mailto:Infocollects.Resource@nrc.gov).

**SUPPLEMENTARY INFORMATION:**

**I. Obtaining Information and Submitting Comments**

*A. Obtaining Information*

Please refer to Docket ID NRC-2022-0068 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2022-0068. A copy of the collection of information and related instructions may be obtained without charge by accessing Docket ID NRC-2022-0068 on this website.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov). A copy of the collection of information and related instructions may be obtained without charge by accessing ADAMS Accession No. ML22074A287. The supporting statement is available in ADAMS under Accession No. ML22074A286.

- *NRC’s PDR:* You may examine and purchase copies of public documents, by appointment, at the NRC’s PDR, Room P1 B35, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. To make an appointment to visit the PDR, please send an email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov) or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. (ET), Monday through Friday, except Federal holidays.

- *NRC’s Clearance Officer:* A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC’s Clearance Officer, David Cullison, Office of the Chief Information Officer,

U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: [Infocollects.Resource@nrc.gov](mailto:Infocollects.Resource@nrc.gov).

*B. Submitting Comments*

The NRC encourages electronic comment submission through the Federal rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2022-0068 in your comment submission.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

**II. Background**

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB’s approval for the information collection summarized below.

1. *The title of the information collection:* NRC Form 244, “Registration Certificate—Use of Depleted Uranium Under General License.”
2. *OMB approval number:* 3150-0031.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* 244.
5. *How often the collection is required or requested:* On occasion.
6. *Who will be required or asked to respond:* Persons who receive, acquire, possess, or use depleted uranium.
7. *The estimated number of annual responses:* 20.6.
8. *The estimated number of annual respondents:* 20.6.
9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 11.7 (8.3 reporting + 1.4 recordkeeping + 2 third-party disclosure).
10. *Abstract:* The NRC regulations in Part 40 of title 10 of the *Code of Federal*

*Regulations*, establishes requirements for the receipt, possession, use and transfer of radioactive source and byproduct materials. Section 40.25 established a general license authorizing the use of depleted uranium contained in industrial products or devices for the purpose of providing a concentrated mass in a small volume of the product or device. The NRC Form 244 is used to report the receipt and transfer of depleted uranium, as required by § 40.25. The registration information required by the NRC Form 244 enables the NRC to make a determination on whether the possession, use, or transfer of depleted uranium source and byproduct material is in conformance with the NRC’s regulations for the protection of public health and safety. General licensees can also use NRC Form 244 to update any of the information contained in the form, once the form is authorized by the NRC.

**III. Specific Requests for Comments**

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the estimate of the burden of the information collection accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: May 24, 2022.

For the Nuclear Regulatory Commission.

**David C. Cullison,**  
*NRC Clearance Officer, Office of the Chief Information Officer.*

[FR Doc. 2022-11435 Filed 5-26-22; 8:45 am]

**BILLING CODE 7590-01-P**

**NUCLEAR REGULATORY COMMISSION**

[Docket No. 70-7005; NRC-2022-0093]

**Waste Control Specialists LLC**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Environmental assessment and finding of no significant impact; issuance.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is issuing an environmental assessment (EA) and finding of no significant impact (FONSI) in support of the NRC’s consideration of

a request from Waste Control Specialists LLC (WCS) to continue to store certain transuranic waste, which originated from the Los Alamos National Laboratory (LANL), without an NRC license under the terms of a 2014 Order. The 2014 Order exempted WCS from the NRC's regulations concerning special nuclear material (SNM). The current action is in response to a request by WCS dated March 18, 2022, to extend the possession time to temporarily store certain waste at specific locations at the WCS Site until December 31, 2024.

**DATES:** The EA and FONSI referenced in this document are available on May 27, 2022.

**ADDRESSES:** Please refer to Docket ID NRC-2022-0093 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2022-0093. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301-415-0624; email: [Stacy.Schumann@nrc.gov](mailto:Stacy.Schumann@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov). For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the "Availability of Documents" section.

- *NRC's PDR:* You may examine and purchase copies of public documents, by appointment, at the NRC's PDR, Room P1 B35, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. To make an appointment to visit the PDR, please send an email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov) or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. (ET), Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:** Harry Felsher, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission,

Washington, DC 20555-0001, telephone: 301-415-6559, email: [Harry.Felsher@nrc.gov](mailto:Harry.Felsher@nrc.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Introduction

The NRC is considering modifying a previously issued exemption order condition that would allow Waste Control Specialists LLC (WCS) to continue storing certain transuranic waste, which originated from the Los Alamos National Laboratory (LANL), without an NRC license for approximately another two years at its Andrews County, Texas site. WCS stores the transuranic waste at issue under the terms of the 2014 Order. The 2014 Order includes certain conditions that the NRC staff has modified over time. Based on the results of the EA that follows, the NRC is issuing a FONSI and, therefore, does not need to prepare an environmental impact statement.

WCS operates a facility in Andrews County, Texas (the WCS Site) that is licensed to process and store certain types of radioactive material contained in low-level waste (LLW) and mixed waste. The WCS Site is also licensed to dispose of certain radioactive, hazardous, and toxic waste. Under an agreement authorized by the Atomic Energy Act of 1954, as amended, a State can assume regulatory authority over radioactive material. In 1963, Texas entered into such an agreement and assumed regulatory authority over source material, byproduct material, and SNM under critical mass. The WCS Site is licensed by the Texas Commission on Environmental Quality (TCEQ) for possession, treatment, and storage of radioactive waste and disposal of LLW under Radioactive Materials License (RML) R04100.

Section 70.3 of title 10 of the *Code of Federal Regulations* (10 CFR) requires persons who own, acquire, deliver, receive, possess, use, or transfer SNM to obtain a license pursuant to the requirements of 10 CFR part 70. The licensing requirements in 10 CFR part 70 apply to persons in Agreement States possessing greater than critical mass quantities. However, pursuant to 10 CFR 70.17(a), "the Commission may . . . grant such exemptions from the requirements of the regulations in this part as it determines are authorized by law and will not endanger life or property or the common defense and security and are otherwise in the public interest."

On September 25, 2000, WCS first requested an exemption from the licensing requirements in 10 CFR part 70. On November 21, 2001, the NRC

issued an order to WCS (2001 Order) granting an exemption to WCS from certain NRC regulations and permitting WCS, under specified conditions, to possess waste containing SNM in greater quantities than specified in 10 CFR part 150, at the WCS storage and treatment facility on the WCS Site in Andrews County, Texas, without obtaining an NRC license pursuant to 10 CFR part 70. The 2001 Order was published in the **Federal Register** on November 15, 2001. The NRC issued superseding Orders to WCS in 2004 (*i.e.*, modified list of reagents) and 2009 (*i.e.*, modified sampling requirements) that modified the conditions in the 2001 Order.

On February 14, 2014, a radiation release event occurred at the U.S. Department of Energy (DOE) Waste Isolation Pilot Plant (WIPP) Facility (WIPP incident). In response, the DOE suspended operations at the WIPP Facility. In April 2014, WCS began receiving some specific waste from DOE that both WCS and DOE understood to meet both the U.S. Department of Transportation (DOT) shipping requirements and the conditions in the 2009 Order. WCS began storing that waste at the Treatment, Storage, and Disposal Facility (TSDF), identified as the storage and processing facility in RML R04100, WCS' TCEQ-issued license. The waste was DOE transuranic waste that originated at the LANL that was destined to be disposed of at the DOE WIPP Facility (*i.e.*, "LANL Waste"). In June 2014, WCS received information from DOE that some of the LANL Waste being temporarily stored at the TSDF may be similar to the waste that might be the cause of the WIPP Incident. In response, WCS moved some of the LANL Waste from the TSDF to the Federal Waste Facility (FWF) disposal cell for temporary storage.

By letter dated July 18, 2014, WCS requested an exemption from the NRC's regulations to possess SNM in excess of the critical mass limits specified in 10 CFR 150.11 while temporarily storing some LANL Waste in the FWF disposal cell. The NRC issued a new order to WCS on December 3, 2014 (2014 Order) that superseded the 2009 Order. The 2014 Order was published in the **Federal Register** on December 11, 2014. The 2014 Order added new conditions, primarily related to the temporary storage of the LANL Waste both at the TSDF and in the FWF disposal cell. The State of Texas incorporated the 2014 Order Conditions into RML R04100.

By letters dated March 28, 2016, August 30, 2018, and August 24, 2020, WCS requested the modification of Condition 8.B.4 of the 2014 Order to

extend the timeframe for temporarily allowing storage of the LANL Waste at the WCS Site from “two years” to “until December 23, 2018,” “until December 23, 2020,” and “until December 23, 2022.” By letters dated September 23, 2016, December 19, 2018, and December 7, 2020, the NRC approved modifications of the 2014 Order Condition 8.B.4, extending WCS’ authorization to store the LANL Waste at the WCS Site without a license under 10 CFR part 70 to “until December 23, 2018,” “until December 23, 2020,” and until “December 23, 2020” by citing the closed status of operations at the WIPP Facility in 2016 and the safe temporary storage status of the LANL Waste at the TSDF and in the FWF disposal cell in 2016, 2018, and 2020.

By letter dated March 18, 2022, WCS requested that the effectiveness of its exemption from NRC requirements in 10 CFR part 70 be extended with the modification of Condition 8.B.4 of the 2014 Order to extend the timeframe for temporarily allowing storage of the LANL Waste at the WCS Site to “until December 31, 2024.” That proposal is the subject of this EA.

## II. Environmental Assessment

### *Description of the Proposed Action*

The proposed action is the WCS request to modify the 2014 Order Condition 8.B.4 to allow WCS to continue to store the LANL Waste at specific locations at the WCS Site until December 31, 2024, without an NRC license.

### *Need for the Proposed Action*

WCS is making this request to continue to store the LANL Waste while the DOE-led Interagency Project Team (including WCS, DOE, U.S. Environmental Protection Agency, NRC, the State of Texas, and the State of New Mexico) works to recommend a path forward for disposition of the LANL Waste. While the WIPP Facility has resumed operations, some of the LANL Waste at the WCS Site cannot be shipped off the WCS Site at this time because it does not meet DOT shipping requirements. WCS has indicated that it will not be able to ship the LANL Waste to another appropriate location by the timeframe specified in the 2014 Order Condition 8.B.4, as modified by the NRC letter dated December 7, 2020. The purpose of this EA is to assess the

potential environmental impacts of the WCS request to modify the 2014 Order Condition 8.B.4 to allow WCS to store the LANL Waste at specific locations at the WCS Site until December 31, 2024. This EA does not approve or deny the requested action.

### *Environmental Impacts of the Proposed Action*

The NRC does not expect changes in radiation hazards to workers or to the environment. WCS will continue to be required to ensure that the LANL Waste in both the FWF disposal cell and the TSDF remain stored safely and securely and notify the NRC of any events as appropriate, as set out in the 2014 Order. No changes to its handling or associated hazards would occur as a result of granting the requested change. Other environmental impacts would be the same as evaluated in the EA that supported the 2014 Order, as applicable to the activities associated with the continued safe storage of the LANL Waste.

### *Environmental Impacts of the Alternatives to the Proposed Action*

As an alternative to the proposed action, the NRC staff could deny the WCS request and, therefore, not issue a modification to the Order Condition 8.B.4 that would authorize continued storage of the LANL Waste at the WCS Site (*i.e.*, the “no action” alternative). Upon expiration of the timeframe in the 2014 Order Condition 8.B.4, as modified by the December 7, 2020, NRC letter to WCS, WCS would still be required to maintain the material safely. In addition, the NRC authorization of any change to the current storage of the LANL Waste at the WCS Site would still be required. As a result, under this alternative, there would be no environmental impacts different from the proposed action, although WCS would be required to secure a license or other regulatory authorization for the storage of the material or potentially be in violation of 10 CFR part 70 upon the expiration of the term in the 2014 Order Condition 8.B.4.

Thus, the “no action” alternative would not result in changes to the environmental impacts evaluated in the NRC’s prior EAs that supported the 2014 Order or the previous NRC orders. Those prior EAs concluded that there would be no significant radiological or

non-radiological environmental impacts associated with the storage of SNM at the WCS Site, consistent with the conditions in those NRC orders.

### *Agencies and Persons Consulted*

On May 12, 2022, the staff consulted with TCEQ by providing a draft of the EA for review and comment. By email dated May 19, 2022, TCEQ provided comments on and recommended corrections to the draft of the EA. The NRC staff modified the EA to appropriately address the TCEQ comments and recommended corrections.

The proposed action does not involve the development or disturbance of additional land. Hence, the NRC has determined that the proposed action will not affect listed endangered or threatened species or their critical habitat. Therefore, no further consultation is required under Section 7 of the Endangered Species Act. Likewise, the NRC staff has determined that the proposed action does not have the potential to adversely affect cultural resources because no ground disturbing activities are associated with the proposed action. Therefore, no consultation is required under Section 106 of the National Historic Preservation Act.

## III. Finding of No Significant Impact

The NRC has reviewed the WCS March 18, 2022, request to supplement the 2014 Order again to extend the possession time of the LANL Waste at specific locations at the WCS Site. The NRC has found that effluent releases and potential radiological doses to the public are not anticipated to change as a result of this action and that occupational exposures are expected to remain within regulatory limits and as low as reasonably achievable. On the basis of this EA, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

## IV. Availability of Documents

The documents identified in the following table are available to interested persons through one or more of the following methods, as indicated.

**Information Collection: NRC Form 646,  
“Formal Discrimination Complaint”**

**AGENCY:** Nuclear Regulatory  
Commission.

**ACTION:** Notice of submission to the  
Office of Management and Budget;  
request for comment.

**SUMMARY:** The U.S. Nuclear Regulatory  
Commission (NRC) has recently  
submitted a proposed collection of  
information to the Office of  
Management and Budget (OMB) for  
review. The information collection is  
entitled, NRC Form 646, “Formal  
Discrimination Complaint.”

**DATES:** Submit comments by June 27,  
2022. Comments received after this date  
will be considered if it is practical to do  
so, but the Commission is able to ensure  
consideration only for comments  
received on or before this date.

**ADDRESSES:** Written comments and  
recommendations for the proposed  
information collection should be sent  
within 30 days of publication of this  
notice to [https://www.reginfo.gov/  
public/do/PRAMain](https://www.reginfo.gov/public/do/PRAMain). Find this

particular information collection by

**SUPPLEMENTARY INFORMATION:**

**I. Obtaining Information and  
Submitting Comments**

*A. Obtaining Information*

Please refer to Docket ID NRC-2021-  
0098 when contacting the NRC about  
the availability of information for this  
action. You may obtain publicly  
available information related to this  
action by any of the following methods:

- *Federal Rulemaking Website:* Go to  
<https://www.regulations.gov> and search  
for Docket ID NRC-2021-0098.

- *NRC’s Agencywide Documents  
Access and Management System  
(ADAMS):* You may obtain publicly  
available documents online in the  
ADAMS Public Documents collection at  
[https://www.nrc.gov/reading-rm/  
adams.html](https://www.nrc.gov/reading-rm/adams.html). To begin the search, select  
“Begin Web-based ADAMS Search.” For  
problems with ADAMS, please contact  
the NRC’s Public Document Room (PDR)  
reference staff at 1-800-397-4209, 301-  
415-4737, or by email to  
[PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov). A copy of the  
collection of information and related  
instructions may be obtained without  
charge by accessing ADAMS Accession  
No. ML22123A107. The supporting  
statement is available in ADAMS under  
Accession No. ML22123A103.

- *NRC’s PDR:* You may examine and  
purchase copies of public documents,  
by appointment, at the NRC’s PDR,  
Room P1 B35, One White Flint North,  
11555 Rockville Pike, Rockville,  
Maryland 20852. To make an  
appointment to visit the PDR, please  
send an email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov)  
or call 1-800-397-4209 or 301-415-  
4737, between 8:00 a.m. and 4:00 p.m.  
(ET), Monday through Friday, except  
Federal holidays.

- *NRC’s Clearance Officer:* A copy of  
the collection of information and related  
instructions may be obtained without  
charge by contacting the NRC’s  
Clearance Officer, David C. Cullison,  
Office of the Chief Information Officer,
