

with each pesticide. Due to its uses, risks, and other factors, para-dichlorobenzene was reviewed through an expedited single phase RED process. Through this process, EPA worked extensively with stakeholders and the public to reach the regulatory decisions for para-dichlorobenzene.

The reregistration program is being conducted under congressionally mandated time frames, and EPA recognizes the need both to make timely decisions and to involve the public. The Agency revised the para-dichlorobenzene RED to address comments received during the public comment period that accompanied the initial RED publication. Therefore, the Agency is issuing the revised para-dichlorobenzene RED without a comment period.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA, as amended, directs that, after submission of all data concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," before calling in product-specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

II. Did EPA Approve the Application?

The Agency approved the application after considering all required data on risks associated with the proposed use of ferric sodium ethylenediaminetetraacetate, and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of ferric sodium ethylenediaminetetraacetate when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

III. Approved Application

EPA issued a notice, published in the **Federal Register** of June 22, 2005 (70 FR (36153) (FRL-7714-6), which announced that Woodstream 69 Locust St., Lititz, PA 17543, had submitted an application to register the pesticide product, Slug & Snail Killer, molluscicide (EPA File Symbol 42697-AR), containing 6.0% Ferric Sodium Ethylenediaminetetraacetate. This product was not previously registered.

The application was approved on December 15, 2008, as Slug & Snail Killer (EPA Registration Number 42697-61) for the control of slugs and snails. (L. Cole).
