DHS will launch a public-facing website on *DHS.gov* for MPP enrollees or representatives acting on their behalf to submit requests. The information on the application will include instructions for submission. Information about the portal will be made available via a tear sheet given to enrollees at the time they are enrolled in MPP. The MPP Disenrollment Request system URL (*engage.dhs.gov/mpp*) will also be searchable on the *DHS.gov* website.

The public-facing website, which is being developed with assistance from the Department of Homeland Security Office of the Chief Information Officer (OCIO), will employ various cloud-based services (e.g., ServiceNow15 and Akamai16 for cloud security and

content delivery) to effectively and efficiently manage the receipt, creation, assignment, tracking, and storage of the self-disclosure of the necessary information to start the MPP Disenrollment Request process. The website is hosted in the Federal Risk and Authorization Management Program (FedRAMP)-certified cloud and provides accessibility and functionality restrictions to define specific user roles through its ServiceNow infrastructure. Each user role has defined and limited access authority to view and edit data sets by Office of the Chief Information Officer master administrators.

While the MPP Disenrollment Request system is under development, enrollees may submit their request for review via email at *MPPRequest@hq.dhs*. With the roll out of the MPP Disenrollment Request application, the email request process will be closed.

This information collection does not have an impact on small businesses or other small entities.

The lack of a public-facing platform to initiate requests for disenrollment from MPP could adversely impact DHS's ability to ensure that enrollments in MPP are consistent with DHS guidance and to timely respond to individual requests for disenrollment from MPP. In addition, the lack of a public-facing platform would reduce DHS's ability to systematically track and monitor these requests.

A new Privacy Impact Assessment is in process titled "Migrant Protection Protocols (MPP) Case Request System." Upon submission of the full 3-year approval, the PIA will be completed. The system is covered by an existing SORN: DHS/USCIS/ICE/CBP-001 Alien File, Index, and National File Tracking System of Records; and DHS/USCIS-007 Benefits Information System.

This is a new information collection. The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated,

electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
