The Commission asks that commenters address the sufficiency of the Exchange's statements in support of the proposal, which are set forth in Amendment No. 1,⁵⁸ in addition to any other comments they may wish to submit about the proposed rule change. In particular, the Commission seeks comment on the following questions and asks commenters to submit data where appropriate to support their views:

1. Given the nature of the underlying assets held by the Trust, what are commenters' views on whether the proposed Trust and Shares would be susceptible to manipulation? What are commenters' views generally on whether the Exchange's proposal is designed to prevent fraudulent and manipulative acts and practices? What are commenters' views generally with respect to the liquidity and transparency of the EUA spot and futures markets and such markets' susceptibility to manipulation? Are there particular features related to the EUA markets and the EUA ecosystem that raise unique concerns about whether the proposed Trust, which would hold EUAs and, possibly, a very limited amount of cash, would be susceptible to fraud or manipulation?

2. Based on data and analysis provided by the Exchange,59 do commenters agree with the Exchange that ICE Endex, on which EUA Futures (including Daily EUA Futures) trade, represents a regulated market of significant size related to spot EUAs? 60 What are commenters' views on whether there is a reasonable likelihood that a person attempting to manipulate the Shares would also have to trade on ICE Endex to manipulate the Shares? 61 Do commenters agree with the Exchange that trading in the Shares would not be the predominant influence on prices in the Daily EUA Futures market? 62

3. The Exchange further states that the "Daily EUA Futures market functions as the 'spot' market for EUAs" and that the "purchase and sale of Daily EUA Futures is the functional and economic equivalent of transactions in spot EUAs." ⁶³ What are commenters' views on whether the Daily EUA Futures market functions as a spot EUA market? What are commenters' views on the extent to which a surveillance sharing agreement with ICE Endex would assist in detecting and deterring fraud and

manipulation that impacts an ETP that holds spot EUAs, and on whether the Exchange's analysis provides evidence to this effect?

4. In addition to the Exchange's CSSA with ICE Endex, the Exchange asserts that there are other mechanisms in place to deter and detect misconduct across both the EUA spot and derivatives markets. Specifically, the Exchange states that both EEX and ICE Endex are subject to the EU regulatory framework 64 and represents that both EEX and ICE Endex are recognized by the CFTC as authorized Foreign Boards of Trade. 65 Do commenters agree with the Exchange that the EU's oversight and monitoring regime, combined with the Exchange's CSSA with ICE Endex, may provide other means to prevent fraudulent and manipulative acts and practices? 66
