

The proposed bridge project has been identified as a nationally or regionally significant project under Executive Order 13604, which requires agencies to coordinate and expedite the permitting and environmental review process for specific projects. The existing bridge is a lift bridge, which provides a vertical navigational clearance of 178 feet above the Columbia River Datum. The applicant, CRC, proposes to decrease the vertical navigational clearance to 116 feet above the Columbia River Datum by building a fixed bridge.

As a structure over navigable waters of the United States, the proposed bridge requires a Coast Guard Bridge Permit pursuant to the General Bridge Act of 1946 (33 U.S.C. 525–533). As such, we are requesting your comments on potential impacts to navigation related to the project. A Navigation Impact Report (NIR) was submitted by CRC to the Coast Guard as part of the bridge application. The NIR concluded that a number of waterway users will be impacted by the proposed project. As mitigation negotiations between the impacted users and CRC remain ongoing, the Coast Guard must consider them burdened users in its determination of the reasonable needs of navigation. In addition to the reduced vertical clearance proposed by CRC, the upper turning basin, located immediately downstream of the existing bridge, will be permanently reduced approximately eighteen percent due to the location of the proposed structures.

During construction, CRC proposes to temporarily reduce the vertical and horizontal clearances by varying amounts for approximately five years. Specifically, for 21 months, both barge channels will be completely blocked, requiring a bridge lift for any vertical clearance greater than 39 feet above Columbia River Datum. Following that time period, for an additional 27 months, the vertical clearance will be restricted to approximately 100 feet above Columbia River Datum. The U.S. Army Corps of Engineers (USACE) is reviewing a proposal by CRC to realign the federal channel to accommodate the proposed project. A ship simulation will be conducted by the USACE in early fall 2013 to determine the impact on the navigation channel during and after construction of the proposed project.

Our publication of this notice begins a 45-day comment period and provides information on how to participate in the process. The process includes an opportunity to submit comment via the docket as outlined below, or through oral comments at two public meetings. The Bridge Permit Application, Navigation Impact Report, and other

materials referenced here, as well as additional documents available to assist the public during this comment period, are available on the Columbia River Crossing Web site at <http://www.columbiarivercrossing.org/Library/Type.aspx?CategoryID=13>.

The Coast Guard will hold two public meetings on the CRC application (one in Portland, Oregon and one in Vancouver, Washington) to provide an opportunity for oral comments. The specific times and locations are as follows:

(1) The first public meeting will be held on Tuesday, June 4, 2013, from 5 p.m. to 8 p.m. at the Red Lion Hotel on the River, 909 N Hayden Island Drive, Portland, Oregon

(2) The second public meeting will be held on Wednesday, June 5, 2013, from 5 p.m. to 8 p.m. at the Hilton Vancouver, 301 West 6th St, Vancouver, Washington.

The purpose of these meetings is to consider an application submitted by CRC for Coast Guard approval of the proposed bridge across the Columbia River, mile 106.5, between Portland, Oregon and Vancouver, Washington. All interested parties may present data, views and comments, orally or in writing, concerning the impact of the proposed bridge project on navigation.

The public meetings will be informal. A representative of the Coast Guard will preside, make a brief opening statement and announce the procedure to be followed at the meetings. Attendees who request an opportunity to present oral comments at a public meeting must sign up to speak at the meeting site at the designated time of the meeting. Speakers will be called in the order of receipt of the request. Attendees at the meetings who wish to present oral comment, and have not previously made a request to do so, will follow those having submitted a request, as time permits. All oral presentations will be limited to three minutes. The public meetings may end early if all present wishing to speak have done so. Any oral comments provided at the meetings will be transcribed and placed into the docket by the Coast Guard. Written comments and related material may also be submitted to Coast Guard personnel specified at that meeting for placement into the docket by the Coast Guard.
