

**DEPARTMENT OF TRANSPORTATION****Federal Aviation Administration**

[Docket No. FAA–2020–0986]

**Agency Information Collection Activities: Requests for Comments; Clearance of a Renewed Approval of Information Collection: Helicopter Air Ambulance Operator Reports****AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on October 14, 2020. The collection involves the requirement for Helicopter Air Ambulance Operators to report certain information to the FAA. The FAA collects 14 pieces of data from helicopter air ambulance operators, 8 of which are mandated in the report to Congress. We collect data on the following: Number of helicopters, helicopter base locations, number of hours the helicopters are flown, number of patients transported, number of transportation requests accepted or denied, number of accidents, number of instrument flight hours flown, number of night flight hours flown, number of incidents, and the rate of accidents or incidents per 100,000 flight hours. The information to be collected will be used in helping the FAA develop risk mitigation strategies and provide information to Congress.

**DATES:** Written comments should be submitted by April 8, 2021.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

**FOR FURTHER INFORMATION CONTACT:** Tom Luipersbeck by email at: [Thomas.A.Luipersbeck@faa.gov](mailto:Thomas.A.Luipersbeck@faa.gov); phone: 615–202–9683

**SUPPLEMENTARY INFORMATION:** *Public Comments Invited:* You are asked to comment on any aspect of this information collection, including (a)

Whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

*OMB Control Number:* 2120–0761.*Title:* Helicopter Air Ambulance Operator Reports.*Form Numbers:* 2120–0756.*Type of Review:* Renewal of an information collection.

*Background:* The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on October 14, 2020 (85 FR 65133). One comment was received.

The FAA Modernization and Reform Act of 2012 (the Act), as amended by the FAA Reauthorization Act of 2018, mandates that all helicopter air ambulance operators must begin reporting the number of flights and hours flown, along with other specified information, during which helicopters operated by the certificate holder were providing helicopter air ambulance services. See Public Law 112–95, Sec. 306, 49 U.S.C. 44731. The FAA Administrator had 180 days to develop a methodology to collect and store those data. The Act further mandates that not later than 2 years after the date of enactment, and annually thereafter, the Administrator shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, a report containing a summary of the data collected.

The helicopter air ambulance operational data provided to the FAA is used by the agency as background information useful in the development of risk mitigation strategies to reduce the helicopter air ambulance accident rate, and to meet the mandates set by Congress. All helicopter air ambulance operators must report data to the FAA.

The FAA collects 14 pieces of data from helicopter air ambulance operators which are mandated in the report to Congress. Data is collected on the following: number of helicopters, helicopter base locations, number of hours the helicopters are flown, number of patients transported, number of transportation requests accepted or denied, number of accidents, number of instrument flight hours flown, number of night flight hours flown, number of incidents in which a helicopter was not directly dispatched and arrived to transport patients but was not utilized

for patient transport, and the number of accidents that occurred while conducting helicopter air ambulance operations. The information is collected annually.

*Respondents:* 62 Helicopter Air Ambulance Operators.*Frequency:* Annually.*Estimated Average Burden per**Response:* Varies per size of operation.*Estimated Total Annual Burden:* 738 Hours for all operators.

Issued in Washington, DC, on March 4, 2021.

**BILLING CODE 4910–13–P****DEPARTMENT OF TRANSPORTATION****National Highway Traffic Safety Administration**

[Docket No. NHTSA–2021–0013]

**Agency Information Collection Activities; Notice and Request for Comment; Automated Driving Systems 2.0: A Vision for Safety**

**AGENCY:** National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

**ACTION:** Notice and request for public comment on an extension of a currently-approved information collection.

**SUMMARY:** The National Highway Traffic Safety Administration (NHTSA) invites public comments about our intention to request approval from the Office of Management and Budget (OMB) for an extension of a currently-approved information collection. Before a Federal agency may collect certain information from the public, it must receive approval from OMB. Under procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval, Federal agencies must solicit public comment on proposed collections of information, including extensions and reinstatements of previously approved collections. This document describes a collection of information for which NHTSA intends to seek OMB extension approval, titled “Automated Driving Systems 2.0: A Vision for Safety” and identified by OMB Control Number 2127–0723, which is currently approved through May 31, 2021. The burden hour calculations have been adjusted to reflect a reduction in burden as well as a reduction in the frequency of response resulting in a total annual burden hour
