

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. CP19-471-000]

Bluewater Gas Storage, LLC; Notice of Application

Take notice that on March 23, 2019, Bluewater Gas Storage, LLC (Bluewater) 333 South Wales Center Road, Columbus, MI 48063, filed in Docket No. CP19-471-000, an application pursuant to section 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations to construct and maintain a new compressor station in Macomb County, Michigan adjacent to Bluewater's existing 20-inch-diameter pipeline. The proposed compressor station will deliver natural gas to Vector Pipeline L.P (Vector) using a single gas-driven turbine with a centrifugal compressor unit, which will provide approximately 11,150 nominal horsepower of compression. Bluewater's proposed Project is an operational upgrade that will restore the originally authorized 500,000 Mcf/d of firm delivery capacity of natural gas at its interconnect with Vector, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

The filing may also be viewed on the web at <http://www.ferc.gov> using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this application should be directed to Conor Ward, WEC Business Services LLC, 231 W Michigan Street, Milwaukee, WI 53203 at (414) 221-2539 or by email at conor.ward@wecenergygroup.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and

state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 3 copies of filings made with the Commission and must provide a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list and will be notified of any meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek court review of the Commission's final order.

As of the February 27, 2018 date of the Commission's order in Docket No. CP16-4-001, the Commission will apply its revised practice concerning out-of-time motions to intervene in any new Natural Gas Act section 3 or section 7 proceeding.¹ Persons desiring to become a party to a certificate proceeding are to intervene in a timely manner. If seeking to intervene out-of-time, the movant is required to show good cause why the time limitation should be waived, and should provide justification by reference to factors set forth in Rule 214(d)(1) of the Commission's Rules and Regulations.²

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the eFiling link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 3 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

Comment Date: 5:00 p.m. Eastern Time on June 28, 2019.

Dated: June 7, 2019.

Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket Nos. CP14-347-000, CP19-19-000]

Magnolia LNG, LLC; Notice of Intent To Prepare a Supplemental Environmental Impact Statement for the Proposed Magnolia LNG Production Capacity Amendment and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare a supplemental environmental impact statement (supplemental EIS) that will discuss the potential environmental impacts resulting from Magnolia LNG, LLC's (Magnolia LNG) proposal to increase the liquefied natural gas (LNG) production capacity at its authorized LNG facility in Calcasieu, Louisiana from that previously approved by the Commission in Docket No. CP14-347-000 (Magnolia LNG Production Capacity Amendment). The Commission will use this supplemental EIS in its decision-making process to determine whether
