Abstract of Information Available

Based on the information available, five associated funerary objects have been reasonably identified. The associated funerary objects are five burial mat fragments that were removed from either Kagamil Island or Ship Rock Island in the Aleutian Islands of Alaska. They were removed by Alan May, an amateur archaeologist who participated in three seasons of archaeological fieldwork in the Aleutian Islands from 1936 to 1938 under the direction of Aleš Hrdlička for the Smithsonian Institution. Sometime in the 1930s, May transferred the items to Frederica de Laguna (1906–2004), a Professor of Anthropology at Bryn Mawr College. Dr. de Laguna later donated the associated funerary objects to Bryn Mawr College on an unknown date. Bryn Mawr College has no knowledge or record of the presence of any potentially hazardous substances used to treat the associated funerary objects.
