

that "A recall communication can be accomplished by telegrams, mailgrams, or first class letters * * *." Given the use of the term "can," we read the three examples as being illustrative rather than the sole means of accomplishing recall communications. Electronic notification is a viable alternative to more traditional methods.

This draft guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the agency's current thinking on using electronic means to distribute certain product information. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statutes and regulations.

II. Comments

Interested persons may submit to the Division of Dockets Management (see **ADDRESSES**) written or electronic comments on the draft guidance. Submit a single copy of electronic comments or two paper copies of any mailed comments, except that individuals may submit one paper copy. Comments are to be identified with the docket number found in brackets in the heading of this document. The draft guidance and received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.

III. Electronic Access

Persons with access to the Internet may obtain the document at either <http://www.fda.gov/oc/guidance/electronic.html> or <http://www.fda.gov/ohrms/dockets/default.htm>.

Dated: September 27, 2005.

Jeffrey Shuren,

Assistant Commissioner for Policy.
