

summarized their impacts on Atlantic sturgeon using a semi-quantitative extinction risk analysis (ERA), similar to that used by other status review reports. Of the stressors evaluated, bycatch mortality, water quality, lack of adequate state and/or Federal regulatory mechanisms, and dredging activities were most often identified as the most significant threats to the viability of Atlantic sturgeon subpopulations. Additionally, some subpopulations were impacted by unique stressors, such as habitat impediments (e.g., Cape Fear and Santee-Cooper rivers) and apparent ship strikes (e.g., Delaware and James rivers).

The SRT used the ERA to conclude that three of the five DPSs (New York Bight, Chesapeake Bay, and Carolina) were likely (>50 percent chance) to become endangered in the foreseeable future, which was defined as 20 years. The remaining DPSs (Gulf of Maine and South Atlantic) were found to have a moderate risk (<50 percent chance) of becoming endangered in the next 20 years. The ERA of these two remaining DPSs suggested that the DPSs do not warrant listing, though the available science may not be sufficient to allow a full assessment of these DPSs.

Currently, we are considering the information presented in the final status review report, the comments from the peer reviewers, and the response of the SRT to the peer reviewers to determine if action under the ESA is warranted. A decision regarding our listing determination will be published in the **Federal Register**.

Authority

The authority for this action is the ESA, as amended (16 U.S.C. 1531 *et seq.*).

SUPPLEMENTARY INFORMATION:

Background: On January 19, 2007, the Department published a Notice in the **Federal Register** inviting applications under Part I of the Indian education formula grants application (72 FR 2501). In that Notice, the Department established a deadline of February 20, 2007 for Part I of the application and stated that the Department would publish a notice inviting applications and establishing a deadline for Part II of that application once the information collection requirements were approved by the Office of Management and Budget (OMB). OMB has approved those requirements. This Notice invites applications and establishes a deadline for submission of Part II of the application. Submissions under Part II will be accepted only from those eligible applicants that met the Part I deadline.

Purpose of Program: The Indian Education Formula Grant to Local Educational Agencies program provides grants to support local educational agencies (LEAs) and other eligible entities described in this notice in their efforts to reform and improve elementary and secondary school programs that serve Indian students.
