SUPPLEMENTARY INFORMATION:

A. Purpose

SF 1413, Statement and Acknowledgment, is used by all executive agencies, including the Department of Defense, to obtain a statement from contractors that the proper clauses have been included in subcontracts. The form is used by the prime contractor to identify and report all applicable subcontracts (all tiers) awarded under the prime contract, identify specific scopes of work the subcontractors will be performing, subcontract award date, and subcontract number, and provide formal notification to the applicable subcontractors of the labor laws and associated clauses they are responsible for complying with.

B. Annual Reporting Burden

A reassessment of the number of contracts awarded that required the inclusion of the SF 1413 was performed for Fiscal Year (FY) 2010, FY 2011, and FY 2012 using data obtained from the Federal Procurement Data System. Based on the comprehensive reassessment performed, it was determined that no changes to the annual number of responses and the annual time burden (from the previous information collection published in the **Federal Register** at 76 FR 28039 on May 13, 2011) was warranted at this time. No public comments were received in prior years that have challenged the validity of the Government's estimate.

Respondents: 31,500.

Responses per Respondent: 2.

Total Responses: 63,000.

Hours per Response: .05.

Total Burden Hours: 3,150.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the Federal Acquisition Regulation (FAR), and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining Copies of Proposals: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405, telephone 202-501-4755. Please cite OMB Control No. 9000-0014, Statement and Acknowledgment SF 1413, in all correspondence.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

[Document Identifier: HHS-OS-0990-new-30D]

Agency Information Collection Activities; Proposed Collection; Public Comment Request

AGENCY: Office of Adolescent Health, Office of the Assistant Secretary for Health, Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, announces plans to submit a new Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting that ICR to OMB, OS seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

DATES: Comments on the ICR must be received on or before May 30, 2014.

ADDRESSES: Submit your comments to *Information.CollectionClearance@hhs.gov* or by calling (202) 690–6162.

FOR FURTHER INFORMATION CONTACT: Information Collection Clearance staff, *Information.CollectionClearance@hhs.gov* or (202) 690–6162.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the document identifier HHS–OS–0990–new–30D for reference.

Information Collection Request Title: Pregnancy Assistance Fund Feasibility and Design Study (FADS).

Abstract: The Office of Adolescent Health (OAH), U.S. Department of Health and Human Services (HHS) is requesting approval by OMB on a new collection. The Pregnancy Assistance Fund (PAF) evaluation will provide information about program design, implementation, and impacts through two core components: A rigorous assessment of program impacts and

implementation, and a descriptive examination of program design. This proposed information collection activity includes (a) program design and early implementation data collected through telephone interviews with PAF grantees and (b) baseline data in up to three impact sites through self-administered questionnaires.

Need and Proposed Use of the Information: Design and implementation data will build on knowledge about the grantees and their program plans gathered from other sources as well as identify sites for the impact study. *Baseline survey data* will be used to confirm the integrity of the random assignment process, define subgroups for which impacts will be estimated, adjust impact estimates to account for survey non-response, and to improve the precision of impact estimates.

Likely Respondents: The 17 PAF grantee administrators and expectant or

parenting young women in 2–3 grantee sites.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions, to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information, to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information, and to transmit or otherwise disclose the information.

The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
Telephone Interview Protocol	6	1	2	12
Baseline Survey	950	1	.5	475
Total				487

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404–639–7570 and send comments to Leroy Richardson, 1600 Clifton Road, MS–D74, Atlanta,

GA 30333 or send an email to *omb@cdc.gov*.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Improving the Understanding of Traumatic Brain Injury through Policy and Program Evaluation Research—New—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Traumatic brain injury (TBI) is one of the highest priorities in public health because of its magnitude, economic and human impact, and preventability. Improving the recognition and management of mild TBIs—such as concussions that occur during youth sports—can help reduce the harm caused by such injuries and prevent future consequences.

More than 7 million U.S. high school students participate in organized sports each year. Sports-related concussions are common injuries among youth and have potentially serious consequences. CDC's public health efforts have included the development of the “Heads Up” education campaign, which focuses on raising awareness of the signs and symptoms of concussions and improving the management of concussions among youth athletes.

Individual states and the District of Columbia have taken the initiative and passed laws aimed at improving the management of youth sports-related concussions. In 2009, Washington State enacted the first such law to manage youth sports-related concussions—the
