

Therefore, in order to ensure that there are approximately nine participants (six in Arlington) per focus group session, a total of 100 potential participants (eight per focus group in Arlington and 14 per focus group in other markets) will be recruited via telephone screening calls, which are estimated to take five minutes per call. In order to recruit 100 potential participants, NHTSA estimates that it

will be necessary to initially reach out to and screen 500 people. This is based on experience that demonstrates that, of the people who are contacted, 20% will qualify for the study, be available and be interested in participating in the focus group.

*Estimated Total Annual Burden Hours: 141 hours.*

NHTSA estimates the total burden per person actually participating in this

focus group research is estimated to be 95 minutes (five minutes for the screening/recruiting telephone call plus 90 minutes in the focus group discussion session). Additionally, the total burden per person recruited (but not participating in the discussions) is five minutes. Therefore, the total annual estimated burden imposed by this collection is approximately 141 hours.

Category of respondent	Number of respondents	Participation time (minutes)	Burden
Recruit/screening call (assumes 20% qualify, are available and interested in participating in the focus group).	500	5	41.7 hours, or 42 hours (rounded).
Participation in 90-minute group .....	66	90	99.0 hours.
Total Burden .....	.....	.....	141 hours.

*Estimated Total Annual Burden Cost:* \$3,360.00.

The only cost burdens respondents will incur are costs related to travel to and from the research location. The costs are minimal and are expected to be offset by the honorarium that will be provided to all research participants. NHTSA estimates that each of the focus group participants will travel less than 30 miles one-way to the focus group location (60 miles round trip). Using the IRS standard mileage rate of \$0.56 per mile,<sup>7</sup> each respondent is expected to incur no more than \$33.60 in transportation costs. Therefore, NHTSA estimates that the total costs to all respondents will be \$3,360.00.
