Title: School Nutrition and Meal Cost Study-II.

Form Number: N/A.

OMB Number: Not yet assigned.

Expiration Date: Not yet determined.

Type of Request: New collection.

Abstract: SNMCS-II will provide a comprehensive picture of the NSLP and SBP, and will provide critical information about the nutritional quality, cost, and acceptability of school meals seven years after major reforms began being phased in during the 2012-2013 school year (SY). SNMCS-II will collect a broad range of data from nationally representative samples of public school food authorities (SFAs), public, non-charter schools, students, and parents/guardians during SY 2019-2020. These data will provide Federal, State, and local policymakers with current information about how federally sponsored school meal programs are operating by updating the information that was collected in SY 2014-2015 for the first School Nutrition and Meal Cost Study (SNMCS-I). In addition, findings from SNMCS-II will be compared to those from SNMCS-I to explore trends in key domains including the nutrient content of school meals, meal costs and revenues, and student participation, plate waste, and dietary intakes. SNMCS-II will also estimate the costs of producing reimbursable school meals in up to five States and Territories outside of the 48 contiguous States and the District of Columbia (DC), and examine the relationship of costs to revenues in

those five outlying areas. Section 28(a) of the Richard B. Russell National School Lunch Act authorizes this assessment of the cost of producing meals, and the nutrient profile of meals under the NSLP and SBP.

The sample frame of SFAs is divided into four groups, including the outlying areas. Samples in Groups 1, 2, and 3 are limited to the contiguous 48 States and DC. The outlying areas sample includes SFAs and schools in Alaska, Guam, Hawaii, Puerto Rico, and the U.S. Virgin Islands.

Data collected from the Group 1 sample will provide the precision required for national estimates of SFA-level characteristics and food service operations. Data collected from the Group 2 sample will be used to address study objectives related to the school nutrition environment and food service operations; the food and nutrient content of school meals; student participation in the NSLP and SBP; student/parent satisfaction with the school meal programs; and students' characteristics and dietary intakes. Data collected from the Group 3 sample will be used to address study objectives related to the school nutrition environment and food service operations; the food and nutrient content of school meals; the costs to produce reimbursable school lunches and breakfasts, including indirect and local administrative costs, and the ratios of revenues to costs; and plate waste in the school meals programs. Data collected from the outlying areas sample will be used to estimate the costs of producing reimbursable school meals and the ratios of revenues to costs.

There is pre-testing burden that is associated with this collection. This burden was reviewed and approved by the Office of Management and Budget on March 19, 2018 under OMB# 0584-0606 FNS Generic Clearance for Pre-Testing, Pilot, and Field Test Studies (School Nutrition and Meal Cost Study-II, Outlying Areas Cost Study Feasibility Assessment). This burden is not included in the burden estimates for this collection.

Affected Public: State, Local, and Tribal Governments respondent groups include: (1) State Child Nutrition Agency directors; (2) State Education Agency finance officers; (3) school district superintendents; (4) SFA directors; (5) local educational agency business managers; (6) menu planners; (7) school nutrition managers (SNMs); (8) principals; and (9) school study liaisons appointed by principals. Private Sector For-Profit Business respondents include food service management company managers. Individual

respondents include: (1) Students (first grade through high school) and (2) their parents/guardians.

Estimated Number of Respondents: A total of 12,979 members of the public will be initially contacted to participate in the study. This includes 4,954 from State, Local, and Tribal Governments, 25 from Private Sector For-Profit Businesses, and 8,000 Individuals. Initial contact will vary by type of respondent and may include study notification, recruiting, or data collection. FNS anticipates that approximately 12,904 of this sample will respond to initial contact and 75 will not respond. Some respondents who respond to the initial contact may subsequently become non-respondents to one or more components of the data collection. The number of unique respondents expected to provide data for the study is 7,886.

The Group 1 completed sample includes 125 SFAs but no schools. Group 1 SFA directors will participate in the SFA Director Survey.

The Group 2 completed sample comprises 125 SFAs, 250 schools, and 2,000 students and their parents/guardians. SFA and school staff will participate in the SFA Director and School Planning Interviews; SFA Director, SNM, and Principal Surveys; the Basic Menu Survey, A la Carte Foods Checklist, and Meal Pattern Crediting Report; and Cafeteria Observation Guide and Competitive Foods Checklists. Students and parents/guardians will complete the Student Interview, including height and weight measurement; 24-dietary recall; and Parent Interview.

The Group 3 completed sample includes 250 SFAs and 750 schools. SFA and school staff will participate in the SFA Director and School Planning Interviews; SFA Cost Interview and Food Cost Worksheet; SFA Follow-Up Web Survey and Cost Interview; SNM Cost Interview; Principal Cost Interview; SFA Director, SNM, and Principal Surveys; the Expanded Menu Survey, A la Carte Foods Checklist, and Meal Pattern Crediting Report; and Cafeteria Observation Guide and Competitive Foods Checklists. Forty State Education Agency finance officers will complete the State Agency Indirect Cost Survey. Plate waste will be observed for 3,900 reimbursable lunches and 2,000 reimbursable breakfasts at a subsample of 130 schools among this Group 3 sample.

In the outlying areas, following recruitment, SFA and school staff in 33 SFAs and 216 schools will complete the SFA Director and School Planning Interviews; SFA Cost Interview and

Food Cost Worksheet; SFA Follow-Up Web Survey and Cost Interview; SNM Cost Interview; Principal Cost Interview; and the Expanded Menu Survey. Up to 5 State Education Agency finance officers will complete the State Agency Indirect Cost Survey and the State Child Nutrition Agency directors in Hawaii and the U.S. Virgin Islands will complete the SFA Cost Interview and SFA Follow-Up Cost Interview to capture the State agencies' involvement in SFAs' food service operations.

Estimated Number of Responses per Respondent: All respondents will be asked to respond to each specific data collection activity only once. The overall average number of responses per respondent across the entire collection is 3.52.

Estimated Total Annual Responses: 45,653.

Estimated Time per Response: 33 minutes (0.55 hours). The estimated response varies from 1 minute to 10.25 hours, depending on the data collection

activity and the respondent group, as shown in the table below.

Estimated Total Annual Burden on Respondents: 25,184 hours. This includes 24,950 hours for respondents and 234 hours for non-respondents. See the table below for each type of respondent.

Dated: June 20, 2018.

The Forest Service has also prepared a single Final Environmental Impact Statement (FEIS) and a combined Draft Record of Decision. This notice is to inform the public that a 60-day objections period is being initiated for individuals or entities who have submitted substantive formal comments related to the revision of the Malheur, Umatilla, and Wallowa-Whitman Forest Plans during the opportunities for public comment provided during the planning process for that decision. Objections must be based on previously submitted substantive formal comments attributed to the objector unless the objection concerns an issue that arose after the opportunities for formal comment.

SUPPLEMENTARY INFORMATION: The decision to approve the Revised Malheur, Umatilla, and Wallowa-Whitman Forest Plans will be subject to the objection process identified in 36 CFR part 219 subpart B (219.50 to 219.62). Individuals and entities who have submitted substantive formal comments related to the revision of the Malheur, Umatilla, and Wallowa-Whitman Forest Plans during the opportunities for public comment, as provided in 36 CFR part 219 subpart A, during the planning process for that decision may file an objection.

Objections must be based on previously submitted substantive formal comments attributed to the objector unless the objection concerns an issue that arose after the opportunities for formal comment. The burden is on the objector to demonstrate compliance with requirements for objection. All objections must be filed, in writing, with the reviewing officer for the Revised Malheur, Umatilla, and Wallowa-Whitman Forest Plans. Objections received in response to this solicitation, including names and addresses of those who object, will be considered part of the public record on these proposed actions and will be available for public inspection. At a

minimum, an objection must include the following (36 CFR 219.54(c)):

(1) The objector's name and address along with a telephone number or email address if available. In cases where no identifiable name is attached to an objection, the Forest Service will attempt to verify the identity of the objector to confirm objection eligibility;

(2) Signature or other verification of authorship upon request (a scanned signature for electronic mail may be filed with the objection);

(3) Identification of the lead objector, when multiple names are listed on an objection. The Forest Service will communicate to all parties to an objection through the lead objector. Verification of the identity of the lead objector must also be provided if requested;

(4) The name of the Plan Revision(s) being objected to, and the name and title of the responsible official;

(5) A statement of the issues and/or parts of the Plan Revision(s) to which the objection applies;

(6) A concise statement explaining the objection and suggesting how the proposed plan decision may be improved. If the objector believes that the plan revision is inconsistent with law, regulation, or policy, an explanation should be included;

(7) A statement that demonstrates the link between the objector's prior substantive formal comments and the content of the objection, unless the objection concerns an issue that arose after the opportunities for formal comment; and

(8) All documents referenced in the objection (a bibliography is not sufficient), except that the following need not be provided:

a. All or any part of a Federal law or regulation,

b. Forest Service Directive System documents and land management Plans or other published Forest Service documents,

c. Documents referenced by the Forest Service in the planning documentation related to the proposal subject to objection, and

d. Formal comments previously provided to the Forest Service by the objector during the plan revision comment period.

Prior to the issuance of the reviewing officer's written response, either the reviewing officer or the objector may request to meet to discuss issues raised in the objection. Interested persons who wish to participate in meetings to discuss issues raised by objectors must have previously submitted substantive formal comments related to the objection issues.
