SUPPLEMENTARY INFORMATION:

The NCUA is proposing a three-year extension of the NCUA Form 5300 Call Report with revised instructions.

OMB Number: 3133-0004.

Title: NCUA Form 5300 Call Report.

Type of Review: Extension of a currently approved collection.

Abstract: Sections 106 and 202 of the Federal Credit Union Act require federally insured credit unions (FICUs) to make financial and other reports to the NCUA. Section 741.5 describes the submission method FICUs must use to provide information to NCUA. NCUA Form 5300, Call Report, is used to file quarterly financial and statistical data through NCUA's online portal, CUOnline. The financial and statistical information provided by credit unions is essential to NCUA in carrying out its responsibility for supervising federal credit unions. This information facilitates NCUA monitoring of credit unions with share accounts insured by the National Credit Union Share Insurance Fund (Share Insurance Fund).

Form 5300 Call Report—Proposed Changes and Comments Received

In the April 23, 2025¹ notice, the NCUA did not propose any revisions to the Call Report Form. However, the NCUA proposed revisions to the 5300 Call Report Instructions to improve clarity and accurate reporting. The comment period for the April 2025 notice ended on June 23, 2025. The NCUA received three comment letters.

One commenter suggested that the NCUA expand the information collected related to reciprocal deposits. The NCUA will consider expanding reciprocal deposit data the next time changes are made to the Call Report form.

One commenter suggested we improve the disclosure of changes by reducing the technical instructions to plain language or flowcharts. The NCUA will consider providing additional information on final changes when the instructions are released in early September.

One commenter requested to be notified if changes are made during the approval process and provided

important insight into how the Call Report data is used. They did not have any objections to the proposed changes.

After considering the comments received the NCUA will proceed with the proposed changes to the Call Report Instructions.

Affected Public: Private sector: Not-for-profit institutions.

Respondents: All FICUs.

Estimated Number of Respondents: 4,411.

Estimated Number of Responses per Respondent: 4.

Estimated Total Annual Responses: 17,644.

Estimated Hours per Response: 4.

Estimated Total Annual Burden Hours: 70,576.

Reason for Change: The number of respondents decreased.

The proposed revisions to the Form 5300 instructions in this notice would not have a material impact on the existing burden estimates.

Legal Basis and Need for Collections: The Call Report Form 5300 information collections are mandatory under 12 U.S.C. 1756, 1766, and 1782. Except for select sensitive items, the Call Report Form 5300 is not given confidential treatment.

The data credit unions report on the Call Report is essential to the NCUA's supervision and regulation of federal credit unions. This information also facilitates the NCUA's monitoring of other credit unions with Share Insurance Fund coverage for share accounts.

Credit unions submit quarterly Call Report data to the NCUA. Call Report data serves a regulatory or public policy purpose by assisting the NCUA in fulfilling its mission of ensuring the safety and soundness of individual credit unions and the credit union system, protecting consumer financial rights, as well as agency-specific missions affecting federal and state-chartered credit unions, such as ensuring financial stability and administering share insurance.

There are no proposed changes to the Form 5300 Call Report. However, the NCUA is proposing revisions to the 5300 Call Report Instructions to improve clarity and accurate reporting. These revisions are captured on page two of the draft 5300 Call Report Instructions.

Request for Comments:

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will become a matter of public record. The public is invited to submit comments concerning: (a)

whether the proposed revisions to the instructions for the collection of information that are the subject of this notice are necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information as proposed to be revised, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

I. Discussion

By letters dated April 28, 2025 (ADAMS Accession No. ML25118A209) and May 20, 2025 (ADAMS Accession No. ML25140A063), TVA submitted to the NRC, pursuant to part 50 of title 10 of the *Code of Federal Regulations* (10 CFR), "Domestic Licensing of Production and Utilization Facilities," an application for a CP to construct a GE Hitachi BWRX-300 at the CRN Site, to be built in Roane County, Tennessee. The CP application references the ESP for the CRN Site, Unit 1, which was issued in 2019 (NUREG-2226, ADAMS Package Accession No. ML19087A266). Submittal of the application initiates the NRC's proposed action of determining whether to grant the CP. A notice of receipt and availability of the complete application was published in the **Federal Register** on June 10, 2025 (90 FR 24425). By letter dated June 12, 2025 (ADAMS Accession No. ML25156A058), NRC informed TVA of its acceptance

and docketing of Part 1 of the application. A notice of acceptance for docketing of the complete application and opportunity to request a hearing was published in the **Federal Register** on July 15, 2025 (90 FR 31709). The purpose of this notice is to inform the public that the NRC will prepare a supplement to the ESP EIS to evaluate the environmental impacts for the proposed issuance of the CP, as required by 10 CFR 51.92(b). The NRC staff will not conduct scoping for the supplement to the EIS prepared for the ESP at the CRN Site, Unit 1. This is in accordance with 10 CFR 51.92(d), which states that a scoping process for a supplement to an EIS is not required.

The regulations in 36 CFR 800.8(c), "Coordination with The National Environmental Policy Act," allow agencies to use their National Environmental Policy Act of 1969 (42 U.S.C. 4321, *et seq.*) process to fulfill the requirements of Section 106 of the National Historic Preservation Act of 1966 (54 U.S.C. 300101, *et seq.*) (NHPA). Therefore, pursuant to 36 CFR 800.8(c), the NRC staff intends to use its process and the documentation required for the preparation of the supplement to the ESP EIS for the proposed action to comply with Section 106 of the NHPA in lieu of the procedures set forth in 36 CFR 800.3 through 800.6.

The NRC staff will also prepare and issue for comment, the draft supplement to the EIS, which will be the subject of a separate **Federal Register** notice.

Dated: July 15, 2025.

For the Nuclear Regulatory Commission.

Jacob Zimmerman,

Acting Director, Division of Rulemaking, Environmental, and Financial Support, Office of Nuclear Material Safety and Safeguards.
