[Docket No. CP07-26-000]

Jo-Caroll Energy, Inc.; Notice of Application

November 29, 2006.

Take notice that on November 22, 2006, Jo-Caroll Energy, Inc (JCE), 793 U.S. Route 20 West, Elizabeth, Illinois 61028, a rural electric distribution cooperative, filed with the Federal Energy Regulatory Commission an abbreviated application pursuant to section 7(f) of the Natural Gas Act (NGA), as amended, requesting the determination of a service area within which JCE may, without further commission authorization, enlarge or expand its natural gas distribution facilities. JCE also requests: (i) A finding that JCE qualifies as a local distribution company (LDC) for purposes of section 311 of the Natural Gas Policy Act of 1978 (NGPA); (ii) a waiver of the Commission's accounting and reporting requirements and other regulatory requirements ordinarily applicable to natural gas companies under the NGA and NGPA; and (iii) such further relief as the Commission may deem appropriate, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions regarding the application should be directed to Michael Hastings, Jo-Caroll Energy, Inc., 793 U.S. Route 20 West, Elizabeth, Illinois 61028, (815) 858-2207 (telephone), mhastings@jocaroll.com; or Joshua L. There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the

requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

The Commission strongly encourages electronic filings of comments, protests, and interventions via the Internet in lieu of paper. See 18 CFR 385.2001(a) (1) (iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link.

[Docket Nos. CP06-61-001]

North Baja Pipeline, LLC; Notice of Amendment to Application

November 29, 2006.

Take notice that on November 21, 2006, North Baja Pipeline, LLC (North Baja), 1400 SW Fifth Avenue, Suite 900, Portland, Oregon 97201, filed in Docket No. CP06-61-001, an amendment, pursuant to section 7 of the Natural Gas Act (NGA), to its application filed on February 7, 2006 to expand its existing pipeline system. Specifically, North

Baja's amendment adopts the Arrowhead Alternative described in supplemental filings made by North Baja on May 1 and May 24, 2006. North Baja does not propose any changes to the transportation capacity of its proposed expansion. The Arrowhead Alternative is an alternative interconnection with Southern California Gas Company (SoCal) as opposed to the originally proposed Blythe Meter Station interconnection both of which are located in Riverside County, California, all as more fully set forth in the request which is on file with Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or TTY, contact (202) 502-8659.

Any questions regarding this application should be directed to Carl M. Fink, Associate General Counsel, North Baja Pipeline, LLC, 1400 SW. Fifth Avenue, Suite 900, Portland, Oregon, 97201 at (503) 833-4256 or Carl_Fink@TransCanada.com.

The new facilities associated with the Arrowhead Alternative, as well as the originally proposed facilities that would no longer be necessary (and are thus withdrawn from North Baja's proposed action), are described in the draft environmental impact statement (EIS) for the North Baja Pipeline Expansion Project that was issued on September 22, 2006 for public comment. Environmental comments received on this amendment will be combined with those received on the draft EIS and will be addressed in the final EIS prepared for the North Baja Pipeline Expansion Project.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and

by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.
