

and coastal stations throughout the world's oceans, seas, and lakes for the purpose of civil earth marine observations. NDBC has prepared a Programmatic Environmental Assessment (PEA) to analyze the continued operational activities of its network of moored buoys and coastal stations. The NDBC PEA has been created in accordance with the National Environmental Policy Act of 1969.

The expected outcome from a Programmatic Environmental Assessment is either (a) finding of no significant impact; (b) identification of the need for an environmental impact statement; or (c) the proposed action is covered by a categorical exclusion established by the parent agency. In the case of the NDBC PEA a finding of no significant impact was made.

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Pacific Island Pelagic Longline Fisheries; Short-tailed Albatross-Fisheries Interaction Recovery Reporting.

OMB Control Number: 0648-0456.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 1.

Average Hours per Response: 1.

Burden Hours: 3.

Needs and Uses: This request is for extension of a currently approved information collection. Federal regulations require the operator of a vessel with a Hawaii longline limited access permit vessel to notify NMFS if an endangered short-tailed albatross is hooked or entangled during fishing operations. Following the retrieval of the albatross from the ocean the vessel

operator must record the condition of the bird on a recovery data form. A veterinarian will use the information to provide advice to the captain for caring for the bird. If the albatross is dead, the captain must attach an identification tag to the carcass to assist the U.S. Fish and Wildlife Service (USFWS) biologists in subsequent studies. This collection of information is one of the terms and conditions contained in the Endangered Species Act Section 7 biological opinion issued by USFWS, and is intended to maximize the probability of the long-term survival of short-tailed albatrosses accidentally taken by longline gear.

Affected Public: Business or other for-profit organizations; individuals or households.

Frequency: On occasion.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

DEPARTMENT OF ENERGY

[FE Docket No. 18-69-LNG]

BP Energy Company; Application for Blanket Authorization To Export Previously Imported Liquefied Natural Gas on a Short-Term Basis

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on June 15, 2018, by BP Energy Company (BPEC), requesting blanket authorization to export liquefied natural gas (LNG) previously imported into the United States from foreign sources in an amount up to the equivalent of 30 billion cubic feet (Bcf) of natural gas on a short-term or spot market basis. BPEC requests this authorization for a two-year period commencing on July 15, 2018, or as soon thereafter as the requested authorization is granted. BPEC seeks authorization to export the LNG from the Dominion Energy Cove Point LNG, LP Terminal (Cove Point Terminal) located in Calvert County, Maryland, to any country with the capacity to import LNG via ocean-going carrier and with which trade is not prohibited by U.S. law or policy. BPEC states that it is authorized in DOE/FE Order No. 4199 to import the equivalent of up to 1,200 Bcf of natural gas from various international sources by vessel for a two-year period beginning on August 22, 2018, and extending through August 21, 2020. BPEC further states that it does not seek authorization to export any domestically produced natural gas or LNG. BPEC is requesting this authorization on its own behalf and as agent for other parties who hold title to the LNG at the time of export. The Application was filed under section 3 of the Natural Gas Act (NGA). Additional details can be found in BPEC's Application, posted on the DOE/FE website at: <https://www.energy.gov/sites/prod/files/2018/07/f53/18-69-LNG.pdf>. Protests, motions to intervene,

DOE/FE Evaluation

The Application will be reviewed pursuant to section 3 of the NGA, 15 U.S.C. 717b.
