[EPA-R05-OAR-2006-0276; FRL-8408-9]

Approval and Promulgation of Air Quality Implementation Plans; Indiana; Amendments to Lead Rules, Quemetco

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revised lead (Pb) emission limits for Quemetco, Incorporated, in Marion County, Indiana. On February 7, 2002, Indiana submitted revisions to its State Implementation Plan (SIP) for lead as part of the State's incorporation of a Federal standard for secondary lead smelters. On October 3, 2006, and November 27, 2007, Indiana supplemented its request as it pertained to Quemetco, Incorporated, in Marion County. The requested SIP revision replaces the Pb emission limits for Quemetco, Incorporated with similarly stringent limits. The new limits were found to be protective of the national ambient air quality standards.

DATES: Comments must be received on or before February 14, 2008.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R05-OAR-2006-0276, by one of the following methods:

SUPPLEMENTARY INFORMATION: In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. [WT Docket No. 07-293, IB Docket No. 95-91; FCC 07-215]

The Operation of Wireless Communications Services in the 2.3 GHz Band; Establishment of Rules and Policies for the Digital Audio Radio Satellite Service in the 2310-2360 MHz Frequency Band

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Communications Commission (FCC) seeks comment on service rules for the Wireless Communications Service (WCS) and for terrestrial repeaters used in conjunction with the Satellite Digital Audio Radio Service (SDARS). The intended purpose of this proceeding is to determine whether the Commission can develop adequate limits on out-of-band emissions for these two services that would permit them coexist in adjacent frequency bands.

DATES: Comments are due on or before February 14, 2008 and reply comments are due on or before March 17, 2008.

ADDRESSES: You may submit comment, identified by WT Docket No. 07-293 and IB Docket No. 95-91, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.
- *Federal Communications Commission's Web Site:* <http://www.fcc.gov/cgb/ecfs>. Follow the instructions for submitting comments.
- *People with Disabilities:* Contact the FCC to request reasonable accommodations (accessible format documents, sign language interpreters, CART, etc.) by *e-mail:* FCC504@fcc.gov or phone 202-418-0530 or TTY: 202-418-0432.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Notice of Proposed Rulemaking (NPRM) in WT Docket No. 07-293 and Second Further Notice of Proposed Rulemaking in IB Docket No. 95-91, adopted December 17, 2007 and released on December 18, 2007. The full text of the Notice of Proposed Rulemaking is available for public inspection and copying during regular business hours at the FCC Reference Information Center, Portals II, 445 12th Street, SW., Room CY-A257, Washington, DC 20554. This document may also be purchased from the Commission's duplicating contractor, Best Copy and Printing, Inc., Portals II, 445 12th Street, SW., Room CY-B402, Washington, DC 20554, telephone (202) 488-5300, facsimile (202) 488-5563, or via *e-mail* FCC@BCPIWEB.com.

The NPRM does not contain any proposed new or modified information collection requirements subject to the Paperwork Reduction Act of 1995, Public Law 104-13. In addition, the NPRM does not contain any proposed new or modified "information collection burden for small business concerns with fewer than 25 employees" subject to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4).

Summary of Notice of Proposed Rulemaking

SDARS licensees operate in the 2320-2345 MHz band. This band is divided evenly between the two SDARS licensees, Sirius (2320-2332.5 MHz) and XM (2332.5-2345 MHz). The WCS service occupies frequencies on either side of the SDARS allocation and consists of six blocks of five megahertz each in the 2305-2320 MHz and 2345-2360 MHz bands.

The Commission has previously invited comment on service rules for SDARS terrestrial repeaters, used in conjunction with the SDARS operators' satellite systems in urban canyons and other areas where satellite signal reception is difficult. In this proceeding, the Commission seeks to update that record, and to invite comment on WCS service rules, that would allow both services to coexist in adjacent frequency bands.

First, the Commission invites comment on power limits for SDARS terrestrial repeaters and WCS service transmitters, to limit the potential for harmful interference resulting from out-of-band emissions. One proposal is an average "ground-level emission limit" of -44 dBm, which would be applicable
