

fishery managers knowledgeable about these species.

No management actions will be decided by the workshop participants. The participants' role will be the development of recommendations for consideration by the stock assessment teams assigned to conduct these assessments. Assessments for these stocks are tentatively scheduled for peer review during a Stock Assessment Review (STAR) panel on July 14–18, 2025. The Pacific Council and the Pacific Council's Scientific and Statistical Committee are scheduled to consider these draft assessments for use in informing management decisions at their September 2025 meeting in Spokane, WA.

Although nonemergency issues not contained in the workshop agenda may be discussed, those issues may not be the subject of formal action during this workshop. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent of the workshop participants to take final action to address the emergency.
