(4) What social and private benefits to small businesses owned by women, minorities, and veterans would you identify as resulting from increasing the number of patents applied for and obtained by those businesses?

(5) Should the USPTO collect demographic information on patent inventors at the time of patent application, and why?

(6) To what extent, if at all, do educational and professional circumstances affect the ability of women, minorities, and veterans to apply for and obtain patents or to pursue entrepreneurial activities?

(7) To what extent, if at all, do socioeconomic factors facilitate or hinder the ability of women, minorities, and veterans to apply for and obtain patents or to pursue entrepreneurial activities?

(8) What entities or institutions, if any, should or should not play an active role in promoting the participation of women, minorities, and veterans in the patent system and entrepreneurial activities?

(9) What public policies, if any, should the Federal Government explore in order to promote the participation of women, minorities, and veterans in the patent system and entrepreneurial activities? Are there any public policies that the Federal Government should not explore?

(10) What action could USPTO take to address the participation of women, minorities, and veterans in the patent system and entrepreneurial activities?

(11) Are there policies, programs, or other targeted activities shown to be effective at recruiting and retaining women, minorities, and veterans in innovative and entrepreneurial activities? Are there policies, programs, or other targeted activities that have proved ineffective?

Oral Testimony: Members of the public are invited to present oral testimony at any scheduled hearing date. Those wishing an opportunity to do so must submit a request in writing via email no later than May 1, 2019.
