SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A. The **Federal Register** notice that solicited public comment on the information collection for a period of 60

days was published on March 17, 2025 at 90 FR 12335.

A. Overview of Information Collection

Title of Information Collection: OpFund Shortfall Program Financial Reporting and Monitoring.

OMB Approval Number: 2577-0300.

Type of Request: Reinstatement with change of previously approved collection.

Form Number: HUD-50093, HUD-50094, HUD-50095, HUD-50096, SF-425.

Description of the need for the information and proposed use: The Shortfall Program has been in operation since FY 2021 and was created through annual Appropriations laws providing a \$25 million set-aside in the Public Housing Fund to assist Public Housing Agencies experiencing or at risk of financial shortfalls. The program is targeted to PHAs with the lowest Public Housing reserves. Funding is allocated

to raise PHAs' reserves to two months of expenses. Along with the infusion of funds, PHAs create Improvement Plans to improve their financial situation and address financial issues. OMB requested that PIH collect information from PHAs to evaluate the efficacy of the program in improving PHA's financial situation. This PRA is being submitted to improve the effectiveness of the program (through monitoring and risk management) which ultimately helps the PHAs reach sustainable financial success. This PRA will include a short-form budget for PHAs to report their budget and actuals through the year so that financial and operational performance can be evaluated; an Improvement Plan, which will increase accountability towards making financial improvements; and Shortfall Program Application and Appeal forms. These forms will be accessible to PHA and HUD staff through a web-based portal to increase operational efficiency.

Abstract of Information Available

Human remains representing at least nine individuals were removed from the Tchefuncte site (16ST1), in St. Tammany Parish. During a recent

inventory of the collections housed at the LSU FACES Lab, Box 6 of 16ST1 collection was rediscovered. Following a systemic osteological analysis, it is determined that Box 6 contains human remains representing at least nine individuals. This assemblage had been omitted from earlier inventories and a Notice of Inventory Completion published in the **Federal Register** on November 18, 2022 (87 FR 69307–69313).

These human remains were recovered as part of excavation projects conducted initially by Clarence Johnson, under the auspices of the Civilian Conservation Corps (CCC), and subsequently by Edwin Doran, through the WPA. No known individuals were identified. No associated funerary objects are present.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains described in this notice.
