

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Overview of This Information Collection

1. Type of Information Collection (check justification or form 83):

Revision of a currently approved collection.

2. The Title of the Form/Collection: Identification Markings Placed on Firearms.

3. The agency form number, if any, and the applicable component of the Department sponsoring the collection: Form number (if applicable): None.

Component: Bureau of Alcohol, Tobacco, Firearms and Explosives, U.S. Department of Justice.

4. Affected public who will be asked or required to respond, as well as a brief abstract:

Primary: Business or other for-profit.

Other (if applicable): None.

Abstract: This information collection requires licensed firearms manufacturers and importers to legibly identify each firearm by engraving, casting, stamping (impressing), or otherwise conspicuously placing an individual serial number on the frame or receiver of a firearm. The required firearms identification information supports Federal, State, and local law enforcement officials in crime fighting by facilitating the tracing of firearms used in criminal activities.

5. An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: An estimated 17,930 respondents will use this collection annually, and it will take each respondent approximately 1 minute to complete each response.

6. An estimate of the total public burden (in hours) associated with the collection: The estimated annual public burden associated with this collection is 66,446 hours, which is equal to 17,930 (total respondents) * 222.3495 (total responses per respondent) * 0.0166667

(1 minute or time taken for each response).

7. An Explanation of the Change in Estimates: Although there is an increase in the total respondents from 13,868 in 2018, to 17,930 in 2021, there is a reduction in both the total responses and burden hours from 5,137,771 to 3,986,663 and 85,630 to 66,446 hours respectively, due to fewer imported firearms. Consequently, the total cost burden for this collection also reduced from \$4,726,749 in 2018, to \$3,667,730 in 2021.

Overview of This Information Collection

1. *Type of Information Collection:* Revision of a currently approved collection.

2. *The Title of the Form/Collection:* Census of Juveniles in Residential Placement.

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The form number is CJ-14, Office of Justice Programs, United States Department of Justice.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Federal Government, State, Local or Tribal. Other: Not-for-profit institutions; Business or other for-profit. *Abstract:* The Census of Juveniles in Residential Placement (CJRP), which is administered biennially, collects

information from all secure and nonsecure residential placement facilities that house juvenile offenders, defined as persons younger than age 21 who are held in a residential setting as a result of some contact with the justice system. This encompasses both status offenses and delinquency offenses, and includes youth who are either temporarily detained by the court or committed after adjudication for an offense. In addition, the CJRP will request information on the facility response to the coronavirus disease (COVID-19), including: the number of tests administered and confirmed cases among young persons and staff, the use of medical isolation/quarantine, and the number of young persons vaccinated. The information gathered in the national collection will be used in published reports and statistics. The reports will be made available to the U.S. Congress, Executive Office of the President, practitioners, researchers, students, the media, others interested in juvenile offenders, and the general public via the OJP agency websites.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* It is estimated that 2,024 respondents will complete questionnaire in an average of 3 hours and 17 minutes per respondent.
