

POLICY JUSTIFICATION*India—UGM-84L Harpoon Missiles*

The Government of India has requested a possible sale of 12 UGM-84L Harpoon Block II Encapsulated Missiles, 10 UTM-84L Harpoon Encapsulated Training missiles, 2 Encapsulated Harpoon certification training vehicles, containers, spare and repair parts, support and test equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$200 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to strengthen the U.S.-India strategic relationship and to improve the security of an important partner which continues to be an important force for political stability, peace, and economic progress in South Asia.

This Harpoon missile system will be employed on the Indian Navy's Shishumar class submarine (Type-209) and will provide enhanced capabilities in defense of critical sea lines of communication. India has already purchased Harpoon missiles for integration on Indian Air Force Jaguar aircraft and Indian Navy P-8I maritime patrol aircraft. India will have no difficulty absorbing these additional missiles into its armed forces.

This proposed sale of Harpoon missiles will not alter the basic military balance in the region.

The principal contractors will be the Boeing Company in St Louis, Missouri; and Delex Systems Inc., in Vienna, Virginia. In accordance with the Indian Defense Procurement Policy, a contractor may be expected to conclude offset agreements with the Government of India but no offset agreement is currently known to have been proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor personnel to India. However, U.S. Government or contractor personnel in-country visits will be required on a temporary basis for program, technical, and management oversight and support requirements for approximately five years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 14-21
