SUPPLEMENTARY INFORMATION: The ESA requires that the Secretary of Commerce develop and implement recovery plans for the conservation and survival of threatened and endangered species. Recovery is defined as an "improvement in the status of listed species to the point at which listing is no longer appropriate" (50 CFŘ 402.02). Řecovery plans provide blueprints to determine priority recovery actions for funding and implementation. The ESA specifies that recovery plans must, to the maximum extent practicable, incorporate into each plan: (1) a description of site-specific management actions that may be necessary to achieve the plan's goals for the conservation and survival of the species; (2) objective, measurable criteria which, when met, would result in the species being removed from the list of threatened and endangered species; and (3) estimates of the time required and costs to achieve the plan's goal and to achieve intermediate steps toward that goal. NMFS has also developed interim recovery planning guidance that provides additional information to ensure consistency among recovery plans developed for all species managed by NMFS. This guidance emphasizes the importance of stakeholder involvement throughout the recovery planning process. In developing the draft recovery plan for the sDPS green sturgeon, NMFS will consider all of the information received in response to this notice and solicitation. In addition, NMFS will publish the draft recovery plan in the Federal Register for public comment.

NMFS requests relevant information from the public that should be addressed during preparation of the draft recovery plan for the threatened sDPS green sturgeon. Such information should address: (a) biological and other criteria for removing the species from the list of threatened and endangered species; (b) factors that are presently limiting or threaten to limit the survival

and conservation of the sDPS green sturgeon; (c) actions to address these limiting factors and threats; (d) estimates of the time and cost to implement recovery actions; and (e) research, monitoring, and evaluation needs.

NMFS understands that stakeholder participation in the recovery planning process is critical to the success of implementing the recovery plan. As such, NMFS requests that stakeholders identify themselves in order to receive notices of upcoming meetings and to receive draft documents to provide comments. For those receiving this notice, please forward to those that may be either interested in participating directly or may have knowledge to lend that would benefit the plan, and thus green sturgeon.

MBDA takes this action to allow for continued program delivery by the incumbent MBEC operators while MBDA completes its evaluation of the MBEC Program and of the competitive solicitation and award processes for the next funding cycle.

The award extension and additional funding referenced herein will be made at the sole discretion of MBDA and the Department of Commerce using the following evaluation criteria: (1) The MBEC's program performance rating during the current program period; (2) the availability of appropriated funds; and (3) MBDA and Department of Commerce's priorities. MBDA will review each MBEC project's performance rating as evaluated through the standardized performance reports and assessments required under the MBEC Program in determining which projects will be offered an extension. Although MBDA is allowing for an extension of the award period for projects awarded under the MBEC Program, it is possible that not all projects will be offered an extension.

Funding for award extensions is contingent upon the availability of Fiscal Year 2010 appropriations, which have not yet been appropriated for the MBEC program. MBDA therefore issues this notice subject to the appropriations made available under the current continuing resolution, H.R. 2918, Division B, "Continuing Appropriations Resolution, 2010," Public Law 111-68. In no event will MBDA or the Department of Commerce be responsible for any costs incurred outside of the current award period by the incumbent operators of the MBEC projects affected by this notice if the MBEC Program fails to receive funding or if an award extension is not made because of other MBDA or Department of Commerce priorities. Publication of this announcement does not oblige MBDA or the Department of Commerce to award any extensions or to obligate any available funds.
