[Public Notice 5939]

Culturally Significant Objects Imported for Exhibition Determinations: “Lawrence Weiner: As Far as the Eye Can See”

SUMMARY: Notice is hereby given of the following determinations: Pursuant to the authority vested in me by the Act of October 19, 1965 (79 Stat. 985; 22 U.S.C. 2459), Executive Order 12047 of March 27, 1978, the Foreign Affairs Reform and Restructuring Act of 1998 (112 Stat. 2681, *et seq.*; 22 U.S.C. 6501 note, *et seq.*), Delegation of Authority No. 234 of October 1, 1999, Delegation of Authority No. 236 of October 19, 1999, as amended, and Delegation of Authority No. 257 of April 15, 2003 [68 FR 19875], I hereby determine that the object to be included in the exhibition “Lawrence Weiner: As Far as the Eye Can See,” imported from abroad for temporary exhibition within the United States, is of cultural significance. The object is imported pursuant to a loan agreement with the foreign owner or custodian. I also determine that the exhibition or display of the exhibit object at the Whitney Museum, New York, NY, from on or about November 15, 2007, until on or about February 10, 2008, and at the Museum of Contemporary Art, Los Angeles, CA, from on or about April 13, 2008, to on or about July 14, 2008, and at possible additional exhibitions or venues yet to be determined, is in the national interest. Public Notice of these Determinations is ordered to be published in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: For further information, including a list of the exhibit objects, contact Carol B. Epstein, Attorney-Adviser, Office of the Legal Adviser, U.S. Department of State (telephone: 202/453-8048). The address is U.S. Department of State, SA-44, 301 4th Street, SW., Room 700, Washington, DC 20547-0001.

Dated: September 17, 2007.

C. Miller Crouch,

Principal Deputy Assistant Secretary for
Educational and Cultural Affairs, Department
of State.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

DOT’s Migration to the Federal Docket Management Systems (FDMS)

AGENCY: Office of the Secretary (OST),
DOT.

ACTION: Notice.

SUMMARY: This notice announces a service disruption to DOT’s Docket Management System (DMS), which contains the public dockets for all DOT agencies (except for the Surface Transportation Board), the Transportation Security Administration (TSA), and the United States Coast Guard (USCG). (Subsequent references to “DOT” in this document also apply to TSA and USCG.) Effective September 30, 2007, DOT’s DMS will be replaced by the Federal Docket Management System (FDMS), a government-wide, electronic docket management system. Please note that in preparation for migration, effective Thursday, September 27, 2007 at 5 p.m. DMS will no longer accept electronic comments/submissions. DMS will accept, as well as process, faxed and other paper documents up until 12 noon on Friday, September 28, 2007. If falling due during this transition, due dates for filings in rulemakings and adjudications will be delayed until October 1, 2007, unless otherwise advised by the originating office. On October 1, 2007 FDMS will begin accepting DOT-related electronic submission. At that time, it will display all open DOT dockets. Between October 1 and October 31, the remaining DOT dockets still will be accessible in DMS. By October 31, the full migration of all dockets currently in DMS is expected to be completed. The change in systems will not change any requirements in DOT regulations.

FOR FURTHER INFORMATION CONTACT:

Renee V. Wright, Program Manager,
Docket Operations, Office of
Information Services, 1200 New Jersey
Avenue, SE., Washington, DC 20590;
telephone number: (202) 493-0402; fax
number (202) 493-2251; e-mail address:

SUPPLEMENTARY INFORMATION:

I. Background

FDMS is a major component of the President’s e-Rulemaking Initiative, which provides easy access to the public dockets maintained by Federal agencies, while streamlining and increasing the efficiency of the internal procedures for agencies that did not already have electronic internet-

accessible systems. FDMS is designed so that the public has a single point of access to the public dockets across the Federal government. FDMS offers a standard, online procedure for Federal agencies to handle and process documents. The Initiative reduces costs by eliminating duplicative information systems and technical infrastructures.

A. What Is FDMS?

FDMS is a full-featured electronic docket management system that gives Federal personnel and docket managers the ability to better manage their rulemakings, adjudications, and other docketed program activities. With this system, more than thirty Federal departments and agencies can post documents, supporting materials, and public comments/submissions on the Internet and the public will have a one-stop site to search, view, and download documents, as well as to submit comments or other documents to the agency dockets. Although all Federal agencies are required to use FDMS for their rulemaking dockets, FDMS also will handle and process public docket materials for other purposes. DOT will use it for all of the material currently docketed in DMS, such as adjudications, peer review, and data quality. We will shortly add a docket subcategory for significant guidance documents.

B. How Can I Access and Use FDMS?

You may access FDMS on the Internet at <http://www.regulations.gov>. You may use FDMS to access available public docket materials online, as well as submit electronic comments or other documents to a particular docket available in FDMS.

C. How Can I Search FDMS?

You may also search for an available public docket or for particular docket material. FDMS provides two basic methods of searching to retrieve dockets and docket materials that are available in the system: (1) “Quick Search” to search using a full-text search engine, or (2) “Advanced Search,” which displays various indexed fields such as the docket name, docket identification number, phase of the action, initiating office, date of issuance, document title, document identification number, type of document, **Federal Register** reference, CFR citation, etc. Each data field in the advanced search may be searched independently or in combination with other fields, as desired. Each search yields a simultaneous display of all available information found in FDMS that is relevant to the requested subject or topic.
