The Proposal

This action proposes to amend title 14, Code of Federal Regulations (14 CFR), part 71 by establishing Class E airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Clark County Airport, Clark, SD, to accommodate new standard instrument approach procedures. Controlled airspace is needed for the safety and management of IFR operations at the airport.

Class E airspace areas are published in Paragraph 6005 of FAA Order 7400.9Y, dated August 6, 2014 and effective September 15, 2014, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an

established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would establish controlled airspace at Clark County Airport, Clark, SD.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 3

RIN 2900–AP18

Additional Compensation on Account of Children Adopted Out of Veteran’s Family

AGENCY: Department of Veterans Affairs.

ACTION: Proposed rule.

SUMMARY: The Department of Veterans Affairs (VA) proposes to amend its adjudication regulations to clarify that a veteran will not receive the dependent rate of disability compensation for a child who is adopted out of the veteran’s family. This action is necessary because applicable VA adjudication regulations are currently construed as permitting a veteran, whose former child was adopted out of the veteran’s family, to receive the dependent rate of disability compensation for the adopted-out child, which constitutes an unwarranted award of benefits not supported by the applicable statute and legislative history.

DATES: Comments must be received on or before February 2, 2015.

ADDRESSES: Written comments may be submitted through www.Regulations.gov; by mail or hand-delivery to Director, Regulation Policy and Management (02REG), Department of Veterans Affairs, 810 Vermont Avenue NW., Room 1068, Washington, DC 20420; or by fax to (202) 273–9026.

Comments should indicate that they are submitted in response to “RIN 2900–AP18—Additional Compensation on Account of Children Adopted Out of Veteran’s Family.” Copies of comments received will be available for public inspection in the Office of Regulation Policy and Management, Room 1068, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday (except holidays). Please call (202) 461–4902 for an appointment. (This is not a toll-free number.) In addition, during the comment period, comments may be viewed online through the Federal Docket Management System (FDMS) at www.Regulations.gov.

SUPPLEMENTARY INFORMATION: Pursuant to 38 U.S.C. 1115, a veteran entitled to compensation based on a service-connected disability rated not less than 30 percent is entitled to an additional rate of disability compensation for each of his or her children. Section 101(4)(A) of title 38, United States Code, defines “child” to include an unmarried person under the age of 18 years who is a legitimate child, a legally adopted child, a stepchild who is a member of the veteran’s household or was a member of the veteran’s household at the time of the veteran’s death, or an illegitimate child. See also 38 CFR 3.57. The statute also provides some exceptions for individuals who are permanently incapable of self-support and individuals who are pursuing an education. See 38 U.S.C. 101(4)(A); see also 38 CFR 3.57. Additionally, 38 CFR 3.58 provides that “[a] child of a veteran adopted out of the family of the veteran . . . is nevertheless a *child* within the meaning of that term as defined by § 3.57 and is eligible for benefits payable under all laws administered by the Department of Veterans Affairs.” See VA Op. Gen. Couns. Prec. 16–94 (1994) (“pursuant to [§ 3.58] a child adopted out of a veteran’s family may remain a child of the veteran for VA purposes”). Therefore, under current regulations, VA is required to pay a veteran additional disability compensation for a child who otherwise meets the requirements under § 3.57 but has been adopted out of the veteran’s family.

However, VA believes its longstanding interpretation in § 3.58 as it applies to 38 U.S.C. 1115 is inconsistent with the statute’s clear purpose to provide for payments to a
